EDUCATION

Rai Technology University
AGBSC

Bangalore, India
July 2016 - May 2020

WORK EXPERIENCE

Software Engineer

Mad Works India Pvt Ltd company

January 2024 - present

- Developed a highly secure and reusable **NODEJS and PHP** component for CRM dashboard encryption, seamlessly integrated across multiple projects. Enhanced encryption and ensured data integrity for heightened security.
- Engineered a high-performance **Notification and Verification service**, leading to a remarkable **10 percent decrease in unnoticed failures for KYC and verification requests**. This not only streamlined critical processes but also elevated the user experience.
- Drove the development of resilient **Rest APIs and integrations**, leveraging **MongoDB, MySQL, and SQL databases**. Contributed significantly to seamless data management and system interoperability, showcasing a commitment to technological excellence.

Software Developer

Daksh Innovations LLP

February 2022 - January 2024

- Proficiently managed **MongoDB, MySQL, and SQL data operations**, leveraging **Node.js and PHP frameworks** for peak performance and **optimal database functionality**.
- Developed robust **Rest APIs and integration** solutions, contributing to the creation of a dynamic database for seamless system interactions. This included refining data operations, implementing intricate **gameplay mechanics**, and supporting the development of **OTT platforms**.
- Formulated a detailed **Low-Level Design (LLD)**, establishing a stable and **scalable system architecture** with precision.
- Developed a **discount coupon feature** strategically, **significantly impacting user engagement and loyalty**. This comprehensive approach not only elevated the platform but also demonstrated unwavering dedication to robust data management, leaving an indelible mark on the **overall success of the project**.
- Led a 6-member team** to successful project completion, emphasizing effective **leadership and fostering seamless collaboration for collective achievements**. Cultivated an environment conducive to the project's overall success, ensuring each team member played a vital role in the development process.

Bussiness Development

Skill Vertex

September 2021 - February 2022
