Professional Summary

Immediate joiner with 19 years of experience exclusively in the Fintech industry, including 11 years in the United States working with major financial institutions such as Wells Fargo, Ally Financial, Silicon Valley Bank, and Oracle. A results-driven Senior Product Manager and Product Owner with deep expertise in product strategy, digital transformation, agile execution, and stakeholder collaboration. Proven track record in delivering end-to-end solutions across lending, payments, funds, and core banking domains. Adept at managing product backlogs, gathering requirements, leading cross-functional teams, and optimizing customer journeys for enterprise-scale platforms.

Key Achievements

- Delivered digital transformation for lending and entity onboarding systems used across global institutions.
- Designed and launched payment processing and loan lifecycle enhancements during high-pressure periods (e.g., COVID CHTF).
- Improved time-to-market by 30% through agile best practices and smart testing automation.
- Saved \$450M in revenue at Ally through digital rewrite and extension options deployed remotely.

Core Competencies

- Product Strategy & Roadmap Planning
- Fintech Products: Lending, Payments, Funds, Core Banking
- Agile Methodologies (Scrum, Kanban, SAFe)
- Product Backlog Management & Prioritization

- Business/Functional Requirement Documentation (BRD/FRD)
- End-to-End SDLC Implementation
- UX Design & Prototyping (Figma)
- Stakeholder Engagement & Cross-Functional Collaboration
- Data-Driven Decision Making (SQL, Tableau, Excel)
- Regulatory Compliance & Risk Controls

Technical Skills

- Agile Tools: JIRA, Confluence, JIRA Align, Azure DevOps
- Design & UX: Figma, Balsamiq, Wireframing, UX Research
- Testing & QA: SOAPUI, XML, Postman, TestRail
- Data & Reporting: SQL, PLSQL, Tableau, Power BI, Excel (Advanced)

Areas of Expertise

- Digital Lending Platforms
- Core Banking Systems (e.g., FLEXCUBE)
- Loan Lifecycle Management
- Investor and Entity Management
- Open Banking & APIs
- Fintech Regulatory Compliance
- Digital Transformation Initiatives
- Payments Modernization

Domain Experience & Key Clients

- Industries: Retail Banking, Auto Finance, Commercial Lending, Digital Payments, Wealth Management
- Clients Served: Wells Fargo, Ally Financial, Silicon Valley Bank, Butterfield Bank, Mepco Finance, Equitix, Intermediate Capital Group

Professional Experience

Senior Product Manager | CSC, Bengaluru, India | Dec 2021 – Present

- Leading digital transformation of Fastlane, a Fintech platform comprising Entity Management, Investor Management System, KYC, Risk Engine, Client Portal, and Payments.
- Managed the full product lifecycle—from ideation to rollout—aligning development with market demands and regulatory requirements.
- Conducted market analysis, defined product vision, wrote BRDs/FRDs, and prioritized features based on stakeholder and end-user input.
- Oversaw third-party integrations and vendor coordination to ensure seamless delivery.
- Presented strategic product updates and demos to leadership and clients across geographies.

Product Owner | Ally Financial (Capgemini), Troy, MI, USA | Apr 2016 – Dec 2021

- Led implementation of Ally Auto Advantage, a \$950M asset financing platform including secured lending and leasing, credit decisioning, digital payment services, and end-of-term and remarketing lifecycle enhancements.
- Delivered "Text to Pay" initiative during the pandemic, improving payment rates by 38% and generating \$50–60M in revenue.
- Refined backlogs, conducted sprint planning, executed feature rollouts, and coordinated release management with QA and DevOps teams.
- Partnered with UX, Legal, Risk, Operations, and Accounting teams to deliver customer-centric and compliant solutions.
- Acted as SME for end-of-term and remarketing lifecycle, mentoring new team members and streamlining onboarding.

Team Lead / SME | Wells Fargo (Capgemini), Charlotte, NC, USA | Oct 2013 – Apr 2016

- Oversaw UAT and regression testing for a global core banking rollout of Oracle FLEXCUBE, integrated with 70+ upstream and downstream applications.
- Configured static data, authored UAT test plans, and ensured seamless integration between upstream/downstream systems.

- Collaborated with business and compliance teams to resolve gaps in user workflows and reporting logic.

Senior Consultant | Silicon Valley Bank / ORACLE, Santa Clara, CA & Edison, NJ | Aug 2010 – Sep 2013

- Managed Flexcube upgrade and implemented downstream integration through an ODS interface.
- Conducted requirement workshops, wrote test scenarios, and coordinated deployment with cross-functional teams.
- Developed BI Publisher reports using OBIEE.

Associate Consultant | Oracle Financial Services | Jul 2007 – Aug 2010

- Implemented FLEXCUBE Lending and Leasing for clients in Bermuda, Puerto Rico, and Chicago.
- Delivered UAT, regression, and customization testing for Auto Loans, Home Loans, and Loan Against Property (LAP).

QA Engineer | Startup, Bengaluru, India | Jul 2005 – Jun 2007

- Built foundational QA skills including functional, regression, and system testing for financial web applications.

Education

Bachelor of Engineering, SDM College of Engineering and Technology, Dharwad, India (2001 – 2005)

Certifications

Familiar with concepts and frameworks from CSPO and ICP-APM certifications.

Additional Tools & Methodologies

- OKRs / KPIs

- Product Lifecycle Management (PLM)
- SAFe Framework
- Customer Journey Mapping
- Voice of the Customer (VoC)
- Go-to-Market Strategy (GTM)
