OBJECTIVE

2 Years experienced Azure Integration Developer specializing in designing and developing scalable and secure applications using **Microsoft Azure PaaS**. Proficient in cloud-based application development and deployment, with a strong understanding of software development principles and best practices. Skilled in C#/.NET, JavaScript, with hands-on experience in SQL Server and MySQL.

TECHNICAL SKILLS

Azure Services	Azure Functions, Azure SQL Database, Azure DevOps, Azure Storage, Logic App Azure API Management, Service bus, Azure Cosmos DB, Azure key vault, Azure monitors.
Programming Languages	C#/.NET, JavaScript.
DevOps	Azure CI/CD Pipelines, GitHub, Terraform Script
Tools	Visual Studio, Visual Studio Code, Postman
Database Technologies	Familiarity with SQL Server and MySQL.

EXPERIENCE

Azure Developer Tata Consultancy Services	Oct 2022 - Present <i>Kolkata, WB</i>
- Designed and implemented serverless solutions using Azure Functions to streamline and automate business processes. - Developed and managed workflows using Azure Logic Apps, ensuring seamless integration with various external and internal services. - Developed and applied custom policies in Azure API Management (APIM) to secure, transform, and manage APIs effectively. - Created and maintained CI/CD pipelines with Azure DevOps, automating the build, testing, and deployment processes, resulting in faster and more reliable software releases. - Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality cloud- based applications. - Set up Azure Monitor for comprehensive monitoring and diagnostics of cloud resources and applications, enabling proactive detection of issues and performance optimization.	
Intern Cognizant	Jan 2022 – June 2022 <i>Remote</i>
- Perform E2E testing of Salesforce component using Selenium Automated Tool. - Hands-on on JavaScript, HTML-CSS, SQL.	

EDUCATION

Bachelor of Technology , (9.08 CGPA) Technocrats Institute of Technology, Bhopal	(2018-2022)
Higher Secondary School Acc H.S. School (12th - 85.20 %)	(2017)

CERTIFICATONS

- Azure Developer Associate
- Azure Fundamentals

ACHIVEMENTS

- Qualified TCS Elevate Wings1 and promoted to **System Engineer - Digital Cadre**.

PROJECTS

- **Application:** - Retail E-commerce
- **Role:** - Azure Integration Developer
- **Project Description:** - UK based Retail e-commerce and future operations integration project.
- **Technologies Used:** - Azure Function App, Logic App, Azure DevOps, Azure API Management, C#/.NET, GitHub, Terraform Script, CI/CD pipeline
- **Responsibilities:** -
 - Developed and deployed Azure Functions using **.NET** to validate and transform the data to ensuring seamless integration between various services and applications.
 - Secured sensitive configurations and API keys using **Azure Key Vault**, adhering to best practices for application security and compliance.
 - Implemented **Azure Service Bus** to handle message queues between data ingestion services and the analytics engine, ensuring reliable and scalable communication.
 - Designed, implemented, and maintained complex workflows in Azure Logic Apps using different types of trigger and actions to meet business requirements.
 - Managed the entire deployment lifecycle through Azure DevOps, implementing automated testing and continuous integration to maintain high code quality and reduce deployment times.
 - Deployed APIs using Azure API Management to expose analytics data to external clients, with robust security measures and rate-limiting to manage high traffic loads.
