

EDUCATION:

Arya College of Engineering & I.T, Jaipur, India.

Aug 2017 - Oct 2021

Information Technology | Percentage: 77.32

EXPERIENCE:

Application Development Associate, Accenture, Kolkata.

Sep 2021 – Dec 2022

- Experienced SAP Banking consultant, proficient in Requirement Analysis and Functional Aspects. Conducted thorough data validation, cleaning, and analysis using Excel, Power BI and contributing to five reports.
- Demonstrated expertise in creating comprehensive documentation for client-specific applications and one of the project processes. Actively participated in meetings, providing updates.
- Collaborated effectively with four cross-functional teams and stakeholders, showcasing strong communication and teamwork skills.

SKILLS:

Analytical Tools:

- Power BI
- Advanced Excel

Programming Languages:

- SQL (Structured Query Language)
- Python

Database:

- MySQL
- DBMS

PROJECT EXPERIENCE:

Vrinda Store Analysis - [Excel | [GitHub Repo](#)]

- Conducted detailed sales analysis for Vrinda Store, identifying trends and growth opportunities, while improving data accuracy and processing efficiency by 20%.
- Discovered 65% of purchases by women, with a specific age group driving half of sales, and developed strategies to boost sales revenue by 15%.
- Recommended targeted marketing, increasing customer engagement and conversion rates by 25%, and executed targeted advertising leading to a 30% sales increase in the first quarter.

Store Analysis - [Power BI | [GitHub Repo](#)]

- Designed interactive Power BI dashboard for detailed online sales analysis in retail, incorporating complex filters for Qtr1, Qtr2, Qtr3, Qtr4 data analysis and creating various visualizations including bar charts, scatter charts, and maps.
- Detected Cash on Delivery (COD) as the top payment method, constituting 44% of transactions, and found Maharashtra as the state with the highest sales contribution.

HR Analytics Dashboard - [Power BI | DAX | [GitHub Repo](#)]

- Formulated Power BI HR Dashboard to enhance staff performance and reduce attrition, implemented Power Query and DAX to identify high attrition in Life Sciences (38%) and ages 26-35 (116), and offered actionable insights for HR, emphasizing 163 attrition cases in the 5k salary slab for effective management.
- Examined attrition by job roles, finding Laboratory Technicians affected, and identified attrition of 1 year at company with an average attrition rate of 16.1%.

Finance Dashboard - [Power BI]

- Developed a detailed Power BI Finance Dashboard for comprehensive expense tracking and meticulous goal monitoring, analyzing intricate spending patterns including a significant 36.44% allocation towards House Rent.
- Enabled efficient progress tracking towards financial objectives, achieving an impressive 86.87% savings rate in mutual funds.
- Organized extensive data spanning the years 2018 to 2021, facilitating thorough and comprehensive analysis for informed decision-making.

Web Browser Using Python - [Python | [GitHub Repo](#)]

- In this project, we have successfully developed a user-friendly and efficient web browser that harnesses the power of a robust search engine to seamlessly fetch and display comprehensive web information.

CERTIFICATIONS / AWARDS:

- Data Analytics Essentials from CISCO.
- Data Analytics and Job Visualization Job Simulation from Accenture.
- Excel: Mother of Business Intelligence from Codebasics.
- Get Job Ready: Power BI Data Analytics for all levels 2.0 from Codebasics.
- Introduction to Data Analytics from IBM.
- SQL Foundations from Udemy.
- Secured a **5-star Gold badge** in [HackerRank](#) for SQL.
