EDUCATION

Netaji Subhash Engineering College

Bachelor of Technology in Information Technology

Kolkata

Aug. 2018 – June 2022

EXPERIENCE

Software Engineer

July 2022 – Oct 2024

Kellton

Gurugram

- * Engineered RESTful APIs in .NET Core to enable efficient data integration within HRMS modules, achieving high performance and scalability.
- * Developed and optimized SQL Server stored procedures and queries, enhancing data retrieval speed and significantly reducing response times.
- * Refined frontend user experience using .NET MVC, jQuery, and JavaScript with an emphasis on usability and a responsive design..
- * Orchestrated the modular development approach for the HRMS system, partnering with cross-functional teams to implement features for employee management, payroll, and attendance modules.
- * Increased system performance via advanced database tuning and API optimization, thus enhancing the operational efficiency of the HRMS.
- * Focused on employee management modules, implementing functionalities tailored to HR workflows and data integrity..

PROJECTS

ECommerce Platform | .NET Core, SQL Server, .NET MVC, JQuery, Javascript

- * Developed RESTful APIs in .NET Core for seamless integration of various e-commerce modules, facilitating efficient management of products, orders, and users.
- * Authored and optimized SQL Server stored procedures and queries, improving data retrieval capabilities for high-traffic scenarios.
- * Upgraded the user interface using .NET MVC, jQuery, and JavaScript, crafting a responsive and user-friendly shopping experience.
- * Concentrated on frontend-backend integration to ensure fluid interactions between SQL Server and .NET Core APIs for real-time inventory synchronization and order processing.

TECHNICAL SKILLS

Languages: C, SQL (SQL Server, Oracle), JavaScript

Frameworks: .NET Core, .NET MVC, JQuery,

Developer Tools: Git, VS Code, Visual Studio
