Experience

Centroxy Solutions Private Limited

November 2023 – PRESENT

Assistant Software Engineer

Bhubaneswar, Odisha

- Developed software update that **reduced system errors by 30%** and **improved application performance by 25%**. Utilized a comprehensive development stack including **.NET Core Web API** and **Entity Framework Core**.
- Leveraged **Angular** to significantly enhance application performance and deliver a rich, dynamic user interface, resulting in a **35% increase in development efficiency**.

Genius Consultants Limited

April 2022 – October 2023

Junior Software Developer

Kolkata, West Bengal

- Built robust **ASP.NET Web App** with **ADO.NET** for efficient SQL Server access. Stored procedures optimized performance. Deployed updates reducing errors by **30%** and boosting performance by **25%**.
- Improved performance by leveraging jQuery AJAX calls to interact with web services and optimized SQL queries.

Projects

Bindz - Agreement Management | .Net Core Web API, Entity Framework Core, SQL Server, Angular 16 August 2024

- Developed an Agreement Management System that facilitates the efficient creation, management, and signing of Memoranda of Understanding (MOU) between multiple parties.
- The platform allows users to draft agreements collaboratively, track changes, and securely sign contracts digitally. It includes features for automatic reminders for renewal, termination dates, and notifications about important milestones.

First Choice - Car Booking and Servicing | .Net Core MVC, Entity Framework Core, SQL Server March 2024

- The platform allows users to browse available cars, reservations, request services, and track the status of their bookings and service orders in real-time.
- Real-time updates and notifications using SignalR providing a seamless experience for booking and managing services, leading to faster and more efficient operations for the business.

Tata Power MDM - Meter Data Management | ASP.Net Web API, Dapper, jQuery, SQL Server November 2023

- Optimize Business Operations & Enhance Customer Experience: This application manages core business functions and consumer interactions, including consumption tracking, power outage response, and installed equipment monitoring, to enhance system performance and deliver a seamless customer experience.
- Developed a comprehensive consumer tracking system that provides a 360-degree overview of each consumer.

Genius Flexi Staffing Solutions | ASP. Net Web Forms, Web Services, jQuery, SQL Stored Procedure April 2022

- Streamline Business Planning & Complex Workflows: This ERP module empowers efficient business planning and simplifies managing intricate workflows through a user-friendly web interface.
- Managed all aspects of human resources, including payroll, staffing, recruitment, employee KYC (Know Your Customer), compliance, revenue management, taxation, and more, in a centralized, automated system.
