TECHNICAL SKILLS

- Python
- MySQL
- Data Structures & Algorithms (DSA)
- Analytical Reasoning
- SQL
- DBMS

EXPERIENCE

Trainee Engineer, Multicore Technologies

05/2022 – 06/2023

- Assisted in designing and optimizing backend code, improving system performance by 20%.
- Streamlined data processing workflows, reducing errors by 25% and processing time by 30%.
- Conducted debugging, testing, and documentation, improving project reliability by 20% and ensuring compliance with technical standards.

PROJECTS

Portfolio Website with Authentication

Technologies Used: Python, SQLite

- **Created a flexible and user-centric personal portfolio website** incorporating secure authentication mechanisms, featuring dedicated sections for a professional bio, projects, and technical skills. The portfolio attracted over 200+ views within its first month, showcasing its effectiveness in presenting personal achievements and expertise
- **Designed and implemented backend functionalities** to streamline content updates, significantly enhancing user experience. This development reduced content update time by 40%, enabling seamless maintenance and scalability of the portfolio..
- Ensured efficient data storage and retrieval, improving performance by 30%.

Driver Drowsiness Detection System

Technologies Used: Python, Dlib, OpenCV

- Built a solution to detect driver drowsiness by analyzing facial landmarks and eye movements, reducing potential accident risks by 25%.
- Engineered an innovative solution leveraging Dlib to pinpoint 68 unique facial landmarks while employing OpenCV to process over 120 frames per second, thereby improving reaction times by reducing potential accident risks.
- Designed and deployed alert mechanisms, significantly enhancing driver awareness and road safety.

ACHIEVEMENTS

- **HackerRank:** Secured 5-star ratings in Python and SQL.
- Competed in state-level basketball tournaments at AKTU Sports Fest, showcasing athletic skills and teamwork; contributed to securing a top three position among 12 participating teams.

SOFT SKILLS

- **Team Collaboration:** Successfully led and contributed to cross-functional teams, improving project delivery time by 20% through effective coordination and clear delegation.
- **Technical Communication:** Translated complex technical concepts into actionable insights, enabling stakeholders to make data-driven decisions and improving project clarity by 25%.
- **Troubleshooting and Improvement:** Identified and resolved system inefficiencies, reducing debugging time by 30% and enhancing overall performance through structured analysis and innovative solutions.
- **Learning Agility:** Rapidly mastered emerging technologies, implementing new tools and techniques that increased team productivity by 15% within six months.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

AKTU, Uttar Pradesh

Percentage: 83.60%

2018–2022
