PROFESSIONAL SUMMARY

- Proficient IT professional specializing in Robotic Process Automation (RPA) with over 2 years of experience in UiPath development.
- Expertise in the end-to-end lifecycle of automation projects, from requirement gathering to deployment and production support.
- Developed and deployed automation solutions for diverse scenarios, including Siebel CRM Order Management, web-based workflows, Excel data handling, email processing, and PDF automation.
- Experienced in attended and unattended automation, with a strong command of UiPath Orchestrator, including queue management and scheduling processes.
- Successfully delivered 3+ automation projects, improving process efficiency and scalability using REFramework.
- Skilled in troubleshooting, designing resilient workflows, and integrating tools to meet business needs.
- Committed to continuous learning and staying updated on emerging automation technologies.
- Developed and maintained detailed documentation (TDD, PDD, and user guides), improving team alignment and reducing project misunderstandings by 25%.
- Enhanced stakeholder communication through regular updates and clear documentation, leading to a 35% increase in collaboration efficiency and transparency across automation projects.

SKILL SET

- RPA Tools: UiPath (Studio, Orchestrator, Robots, Test Suite, Document Understanding, Reframework)
- Programming: C#, VB.NET, Python (basic)
- Databases: SQL Server
- Web Technologies: HTML, CSS (basic)
- Version Control: Git
- Documentation: Experienced in preparing technical documents (TDD/PDD) for seamless team collaboration.
- Troubleshooting: Skilled in diagnosing and resolving issues within automation workflows.
- Process Optimization: Expertise in designing workflows to enhance operational efficiency.
- Adaptability: Quick to learn and integrate new tools and technologies.

PROFESSIONAL EXPERIENCE

RPA Developer

Speridian Technologies | 2022 – Present

RPA Projects

1. Mobily Automation

Automated 10+ critical processes for Mobily, including Siebel Order Management CRM, Network ITS workflows, web processes, Excel handling, and email integration, achieving a 40% reduction in manual effort, 30% improvement in data accuracy, and 25% increase in efficiency.

Responsibilities

- Collaborated with business teams to define requirements and drafted comprehensive Technical Design Documents (TDD) for automation workflows.
- Designed and deployed UiPath automation solutions for Siebel CRM Order Management, Network ITS workflows, web systems, Excel processes, and email workflows, reducing processing time by 30%.
- Utilized REFramework to ensure robust error handling and scalability, improving process reliability across automation workflows.
- Led UAT testing and managed bot deployments through UiPath Orchestrator, streamlining production rollouts across multiple servers.
- Delivered ongoing production support, resolving 95% of issues within SLA to ensure uninterrupted operations.
- Communicated progress and risks effectively to stakeholders, minimizing project delays and maintaining alignment with business goals.

Environment : UiPath Studio, Orchestrator, MS Excel, Siebel CRM, SpeechLog Application, Bizagi Delegation, Oracle Application.

2. Counsel Benefit Claims Automation

Automated the validation and processing of 500+ Counsel claims weekly using UiPath Document Understanding, streamlining receipt data extraction, document classification, and

claim processing. Achieved a 60% reduction in manual effort by integrating with Laserfiche and Flexman applications.

Responsibilities

- Automated weekly processing of 1,000+ receipt documents using UiPath Document Understanding, extracting key details like Date of Service, CPT Code, and Total Amount, boosting efficiency by 50%.
- Configured confidence thresholds for 100% accuracy, routing 5% of low-confidence data for human review via UiPath Action Center.
- Streamlined batch processing by adding 100+ line items to UiPath Orchestrator queues daily, significantly reducing manual effort and increasing throughput.
- Integrated with Laserfiche to manage 200+ claim documents and metadata weekly, maintaining accurate and organized records.
- Developed validation workflows to compare extracted data against Flexman system records, flagging discrepancies in 10% of claims to ensure data integrity.
- Utilized REFramework for robust error handling and scalability, achieving 99% uptime during high-volume operations.
- Conducted bi-weekly stakeholder meetings to deliver progress updates, address risks, and align on project milestones for successful implementation.

Environment : UiPath Studio, Orchestrator, Action Center, Document Understanding, Laserfiche, Flexman, MS Excel.

3. Nyserderda Automation

Automated the management and processing workflow for energy efficiency projects at NYSEERDA, handling over 150 residential energy audit projects monthly, extracting, validating, and organizing key project documents, which resulted in a 40% reduction in manual processing time and improved reporting accuracy.

Responsibilities

- Developed automation workflows using UiPath to extract and manage project data and documents from the NYSEERDA platform, improving data accuracy and processing speed.
- Automated the extraction and organization of over 200 project-related PDFs monthly, ensuring consistent document management across 150+ projects.
- Streamlined the downloading, renaming, and storing of project lists and documents through custom URLs, reducing manual retrieval time by 50%.

- Implemented process logic to manage project stages, ensuring only relevant data was processed, resulting in a 30% increase in workflow efficiency.
- Incorporated robust error handling and logging to ensure scalable and reliable automation for handling high volumes of project data.

Environment : UiPath Studio, Orchestrator, MS Excel, Chrome, NYSERDA Platform.

AWARDS & ACHIEVEMENTS

- LinkedIn Top Process Automation Voice – Recognized for contributing automation articles reaching hundreds of professionals, sharing valuable insights.
- Spot Award – Speridian Technologies – Awarded for improving project delivery timelines by 25% through exceptional collaboration and performance.
- UiPath Monthly Forum Rewards Winner – Acknowledged as one of the top 25 contributors in the UiPath Monthly Forum for active community engagement.
- Studio Web Community Quiz Challenge – Top 10 Selection – Ranked among the top 10 out of 100+ participants for proficiency in UiPath Studio Web.

LICENSES & CERTIFICATIONS

- UiPath Certified Professional Specialized AI Associate Certification (2025–2028)
- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional (2024–2026)
- UiPath Academy Automation Explorer Training Certification (2024–2026)
- UiPath Academy Specialized AI Associate Training Certification (2024–2026)
- UiPath Academy Automation Developer Associate Training Certification (2024–2026)
- UiPath Academy Test Automation Engineer Training Certification (2024–2026)

EDUCATIONAL QUALIFICATION

- Bachelor of Technology, Computer Science Engineering

LANGUAGES

- English
- Malayalam
- Tamil
