

# Sohana K

## Software Development Engineer In Test

Experienced Quality Analyst with 2+ years in web application Functional Testing. Skilled in manual and automated testing, proficient in Quality management and bug reporting.

## Experience

2022- Present

Rebid | Bangalore

### Software Development Engineer In Test

**Knowledge:** Demonstrate a strong understanding of the Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), and Agile Methodology.

**Testing Expertise:** Design and execute comprehensive test cases, meticulously tracking defects using Bug Tracker Tool. Conduct diverse testing types, including Black Box Testing, Functional Testing, System Testing, and Regression Testing, ensuring thorough software validation.

**Automation Skills:** Apply expertise in Automation Testing Tools like Selenium Web Driver and demonstrate proficiency in Core Java concepts and UI Automation.

**CI/CD and Tools:** Utilize hands-on experience with Jenkins and GitHub, contributing to efficient CI/CD pipelines.

**Scripting and Frameworks:** Develop and execute scripts using Web driver-TestNG with Java, implementing a Functional Decomposition TestNG framework.

Design and implement the Page Object Model (POM), incorporating Data Providers in Selenium for a modular framework.

**Communication and Skills:** Exhibit strong analytical, organizational, and problem-solving skills as a self-starter. Demonstrate effective communication and interpersonal abilities, fostering collaboration within cross-functional teams.

## Roles and Responsibility:

- Analyzed business requirements and technical specifications to identify test scenarios, create test cases, and develop test scripts.
- Conducted Smoke, System, Integration, User Acceptance, and Regression testing.
- Designed and executed automation scripts using Selenium WebDriver with TestNG, ensuring parallel and sequential testing.
- Participated in Defect triage calls, standup meetings, and retrospective meetings on a weekly basis to discuss and address open defects with the Development and business teams.

## Certified:

- Python for Testers
- Selenium WebDriver
- Automation Framework Design (TestNG, Cucumber, Page Object)
- Certified in Manual and Automation Testing.

## Education

2016- 2020

Bachelor of Engineering in Computer Science from Visvesvaraya Technological University  
Overall CGPA : 7.69

## Skills

- Testing Expertise:
  - Functional and Non-Functional Testing
  - Database Testing
  - User Acceptance Testing (UAT)
  - Cross-Browser Testing
  - Web Application Testing
  - System Testing
- Automation Tools and Programming Languages:
  - Selenium WebDriver
  - TestNG
  - Cucumber
  - Python
  - Java Programming
  - Cypress
  - API Testing (Postman)
  - UI Automation
  - Test Automation Frameworks

## Tools

- Frameworks: Java, Python
- CI/CD Tools: Jenkins
- Version Control System : Git
- Methodologies: Agile, Waterfall
- Defect Tracking Tool: Jira
- Database: MySQL, MongoDB
- UI Automation Tools: Selenium, TestNG, Junit , Extent Reports, Cucumber
- IDE: IntelliJ, Eclipse
