SUMMARY

Data Analyst with strong expertise in Python, SQL, and Power BI, experienced in analyzing complex datasets, building interactive dashboards, and delivering actionable insights to drive informed business decisions. Skilled in data cleaning, trend analysis, and collaborating with cross-functional teams.

EXPERIENCE

Data Science Internship

iNeuron

January 2023 - January 2024, Bengaluru

- Collected and interpreted data to enhance predictive analytics models, improving forecast accuracy by 20%.
- Developed and maintained databases, implementing data cleaning and transformation processes to ensure data quality.
- Created visualizations and reports to communicate findings to stakeholders, driving strategic business initiatives effectively.

Data Analysis Internship

Excelerate

August 2023 - September 2023

- Led a team performing advanced data analysis and visualizations to identify trends and inform strategic decisions.
- Analyzed large datasets using SQL to derive actionable insights, achieving a 98% accuracy rate in data extraction.
- Collaborated with cross-functional teams to present findings and contribute to data-driven decision-making processes.

Data Analysis Internship

HiCounselor

January 2023 - February 2023

- Conducted data cleaning and analysis for marketing campaigns, improving decision-making processes by 30%.
- Built visualizations and reports using **Power BI**, streamlining decision-making for stakeholders.
- Developed dashboards, enhancing real-time tracking of KPIs and data-driven strategies by 25%.

PROJECTS

Fraud Detection in E-commerce Transactions

December 2022 - January 2023

- Developed a **machine learning model** to predict **fraudulent transactions**, achieving **90% accuracy** and enhancing security.
- Conducted **data preprocessing** and **feature engineering** to optimize model performance and reliability.
- Reduced fraud detection time by 20% through optimized model performance.

Advanced Text Analytics for Marketing Insights

February 2023 - March 2023

- Collected and preprocessed **text data** for sentiment analysis, uncovering insights to guide strategic decisions.
- Visualized findings using **Python libraries**, effectively communicating results to stakeholders.
- Increased actionable insights by 15% through advanced data segmentation.

Cost-Effective Optimization of Facebook Ad Campaigns

Excelerate • August 2023 - September 2023

- Analyzed Facebook ad performance data to identify cost-saving opportunities, contributing to a **15% increase in ROI**.
- Collaborated with marketing teams to implement data-driven adjustments for improved campaign effectiveness.

Play Store App Analysis and Insights

HiCounselor • January 2023 - February 2023

- Cleaned and validated data from 5,000+ app records to ensure accuracy in analysis and reporting.
- Designed 3 interactive Power BI dashboards, effectively presenting insights to stakeholders for better decision-making.
- Executed SQL queries on large datasets to identify trends, driving a 20% improvement in app performance metrics.

EDUCATION

Bachelor's Degree in Mathematics

Rama Devi Women's University, Bhubaneswar

CERTIFICATIONS

Full Stack Data Science

iNeuron • 2024

SKILLS

Python, SQL, Power BI, Data Visualization, Data Analysis, Data Science, Machine Learning, Predictive Modelling, Data Preprocessing, Statistical Analysis, MS Excel, Critical Thinking, Problem Solving, Collaboration, Communication, Attention to detail, Time Management
