OBJECTIVE

Experienced Software Engineer with over 3 years of hands-on expertise in developing web applications. Specializes in front-end development with proficiency in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, and React.js. Skilled in integrating RESTful APIs and delivering efficient, maintainable code to enhance user experiences. Demonstrated ability to meet deadlines and consistently improve development processes for superior results. Dedicated to continuously learning emerging technologies and delivering innovative solutions to evolving projects

Experience

Software Engineer | Adunhill Technology Private Limited

June 2021 – Aug 2024

- Developed and optimized web applications using HTML, CSS, Bootstrap, JavaScript, and React.js, increasing application performance by 25% across multiple projects
- Streamlined development workflows, reducing development cycles by 20% through the adoption of modern tools and practices
- Ensured 95% on time project delivery by optimizing team workflows and implementing robust project management strategies
- Diagnosed and resolved complex code integration issues, decreasing after deployment bugs by 15%
- Spearheaded frontend development efforts across three major projects, ensuring seamless user experiences
- Integrated emerging technologies that reduced deployment time by 40% and increased development efficiency by 25%
- Cultivated a culture of collaboration, boosting team productivity by 30% and fostering innovation

Projects

GEC Score

- Engineered a comprehensive web application to assess women's participation in organizations through surveys, incorporating an interactive dashboard that boosted engagement by 20%
- Designed and executed a responsive interface utilizing React.js, JavaScript, HTML, CSS, and Bootstrap, achieving a 30% improvement in page load speed
- Optimized RESTful API integration, improving response time by 25%, and collaborated on UI/UX enhancements, increasing user satisfaction by 15%
- Resolved frontend issues, reducing errors and improving user satisfaction by 20%

Questionnaire

- Created a survey platform to collect and analyze legal data, increasing survey completion rates by 25% and helping decision makers with clear reports
- Built interactive forms using JavaScript and React.js, reducing form completion time by 20%
- Implemented secure login features and refined API efficiency, boosting data fetch speed by 30%
- Fixed interface issues with QA teams, cutting user reported bugs by 15% and improving usability

Carbon App

- Developed a web application to track and display carbon emissions, improving data accuracy by 25%
- Built a responsive interface using React.js, JavaScript, HTML, and Bootstrap, enhancing accessibility by 30%
- Integrated RESTful APIs, reducing data retrieval time by 20%
- Designed an interactive dashboard, improving user engagement by 35%
- Established features for admins and users to manage companies and assets, streamlining reporting by 40%

Certifications

- NPTEL Online Certification in C
- Certification: Become a Certified Web Developer: in HTML, CSS, and JavaScript from Udemy

Technical Skills

- Languages and Frameworks: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React.js
- Version Control and Tools: Git, GitHub, Visual Studio Code
- APIs and Integration: RESTful APIs
- Development Practices: Responsive Web Design, Performance Optimization

Education

Bachelor of Engineering (BE) in Computer Science

Aug 2016 – Aug 2020

Kalpataru Institute Of Technology, Tiptur
