## IT Infrastructure Specialist

Phone No: +918431410688    Email Id: md9ali8@gmail.com    Address: Bangalore

Highly motivated IT professional with extensive experience in storage technologies, cloud platforms, and virtualization seeks to leverage expertise as an IT Infrastructure Specialist. Proven ability to enhance scalability, reliability, and flexibility of IT infrastructures by implementing best practices and industry knowledge. Seeking to contribute to a dynamic IT team and support company growth by delivering innovative and efficient IT solutions.

### Professional Summary

- Skilled IT professional offering expertise in storage technologies, cloud platforms (AWS, Azure), and virtualization seeking to enhance IT infrastructure as an IT Infrastructure Specialist.
- Excels in ensuring the scalability, reliability, and flexibility of IT infrastructures through the implementation of best practices.
- Proficient in handling NetApp Data ONTAP SAN, performance, E-Series, and Metrocluster domains, resolving technical issues, and adhering to SLAs.
- Adept at troubleshooting switch-related problems, including port flapping, SFP faults, and zoning issues, ensuring network stability and optimal performance.
- Possesses practical experience in analyzing storage performance using Grafana, identifying bottlenecks, and recommending data-driven action plans.
- Experienced in configuring and managing Windows and Linux servers, including RAID configuration, firmware updates, and troubleshooting hardware issues.
- Proficient in deploying and managing virtual machines on ESXi servers using vCenter, ensuring high availability and data redundancy.
- Proven ability to collaborate effectively with cross-functional teams, including network and storage teams, to resolve complex technical issues.
- Possesses a strong understanding of ITIL principles and experience in working with ticketing systems like ServiceNow to manage and track IT incidents.
- Holds certifications in AWS Solutions Architect Associate and CompTIA Server+, demonstrating a commitment to continuous learning and professional development.

### Work Experience

Jun 2023 - present  
**Sr Associate - Infrastructure(L2)**  
Sutherland Global Services Pvt Ltd (Bangalore)

- Delivered Level 2 technical support for NetApp Data ONTAP SAN, encompassing performance tuning, E-Series troubleshooting, and Metrocluster management.
- Investigated and resolved complex technical issues pertaining to storage infrastructure, ensuring high availability and optimal performance.
- Proactively addressed and resolved P1-P4 priority cases within defined SLAs, minimizing service disruptions and ensuring client satisfaction.
- Collaborated effectively with clients to guide them through SAN environment setup, LUN mapping, and storage best practices.
- Leveraged in-depth knowledge of networking protocols and concepts to troubleshoot switch-related issues, such as port flapping, SFP faults, and zoning configurations.
- Utilized Grafana to monitor storage performance, identify bottlenecks, and develop data-driven action plans to optimize storage utilization and efficiency.
- Mentored and trained junior engineers on technical aspects, troubleshooting methodologies, and best practices for storage management and support.
- Contributed to team success by actively participating in knowledge sharing sessions and collaborating effectively with cross-functional teams to resolve critical incidents.

Nov 2022 - May 2023  
**Server Support Engineer**  
Primus Global Services (Bangalore)

- Provided comprehensive server support, addressing incidents related to disk, memory, processor, and other hardware components to ensure optimal server health and performance.
- Performed proactive server monitoring, reviewing system logs and events, and escalating issues to L2/L3 support and team leads as per established procedures.

### Technical Skills

|                       |       |
|-----------------------|-------|
| AWS                   | ●●●●○ |
| Azure                 | ●●●○● |
| NetApp                | ●●●●○ |
| SAN                   | ●●●●○ |
| Virtualization        | ●●●●○ |
| Linux                 | ●●●○● |
| Troubleshooting       | ●●●●○ |
| Networking            | ●●●○● |
| Storage Area Networks | ●●●●○ |
| Cloud Computing       | ●●●●○ |

### Soft Skills

- Problem-solving
- Communication
- Teamwork
- Analytical Skills
- Adaptability
- Time Management
- Learning Ability
- Pressure Handling
- Mentoring
- Collaboration

### Core Competencies

- IT Infrastructure Management
- Storage Management
- Cloud Technologies
- Troubleshooting & Problem Solving
- Technical Support & Collaboration

- Executed server maintenance tasks, including patching, firmware upgrades, service pack installations, and application updates, to maintain server security and stability.
- Collaborated in data center operations, including server hardware upgrades and configuration adjustments, to support evolving business needs.
- Built and configured physical and virtual servers running Windows and Linux operating systems, ensuring adherence to established standards and best practices.

**Feb 2022 - Aug 2022**

### **L1 Associate**

**Zones Corporate solutions Pvt Ltd (Bangalore)**

- Delivered Level 1 technical support within a multi-OS environment, including Linux, Windows, and VMware ESXi, ensuring the smooth operation of critical infrastructure.
- Deployed and configured virtual machines on ESXi servers, optimizing resource allocation and meeting specific business requirements.
- Monitored the health and performance of virtual machines using vCenter Server, proactively identifying and addressing potential issues.
- Performed regular data backups and maintained redundancy measures to ensure data protection and business continuity.
- Conducted vulnerability assessments on servers, identified security risks, and implemented appropriate remediation measures to enhance the security posture.
- Participated in server outage calls, collaborated with network and storage teams to troubleshoot complex technical issues, and minimized service downtime.

**Apr 2021 - Jan 2022**

### **IT Support Engineer**

**ITSource Technologies Pvt Ltd (Bangalore)**

- Provided comprehensive IT support to end-users, ensuring a seamless onboarding experience for new hires, including assistance with Single Sign-On (SSO), RSA token configuration, and remote access to virtual desktops (VDI).
- Troubleshoot and resolved a range of technical issues related to RSA tokens, user accounts, virtual desktops, and software deployments, minimizing disruption to user productivity.
- Proactively monitored and resolved user account lockouts and password issues using Active Directory tools, ensuring account security and timely access restoration.
- Collaborated effectively with the IT team to manage software deployments using SCCM, ensuring timely installation and updates to maintain software compliance and system health.
- Maintained detailed records of all support requests and resolutions using the ServiceNow ticketing system, facilitating efficient tracking, reporting, and knowledge sharing.

**Mar 2020 - Oct 2020**

### **Trainee Engineer**

**Sysnet Global Technologies (Bangalore)**

- Provided first-line IT support to end-users, addressing a variety of software and network connectivity issues while adhering to Service Level Agreements (SLAs).
- Troubleshoot and resolved issues related to software applications, including Microsoft Office Suite, McAfee antivirus, and various business-critical applications.
- Assisted users with account management tasks, such as password resets, account unlocks, and distribution list modifications using Active Directory.
- Supported users experiencing MFA authentication issues, leveraging knowledge of Azure Active Directory to ensure secure access to corporate resources.
- Installed software on user machines based on request tickets, ensuring proper configuration and compatibility with existing systems and applications.

## **Education**

---

### **B.E (E&C)**

AMC Engineering College, Bangalore  
(2013 - 2018)

### **PUC**

CPM PU College, Gulbarga  
(2011 - 2013)

### **10th**

ABPS School, Gulbarga  
(2010 - 2011)

## **Certifications**

---

- **AWS Certified Solutions Architect - Associate** (Simplilearn)
- **Introduction to SAN and NAS Storage**
- **CompTIA Server+: Server Storage**
- **CompTIA Server+: Server Roles**

## Hobbies

---

Tech blogging (e.g., sharing knowledge on cloud technologies or storage solutions),  
Online gaming (showcasing teamwork and strategic thinking),  
Learning new technologies (demonstrating a commitment to continuous learning),  
Participating in tech forums or online communities (staying updated on industry trends)
