

SRIRAM RAJENDRAN

DATA ANALYST

📞 6374188685 ✉ sriramrajendran74@gmail.com 📍 CHENNAI

SUMMARY

Detail-oriented Junior Data Analyst with almost one year of experience in developing dynamic dashboards and reports using Power BI. Skilled in data modeling, ETL processes, and optimizing data accuracy, with a strong ability to translate complex business requirements into actionable insights. Proven track record of supporting data-driven decision-making through efficient analysis and visualization, ensuring clarity and precision in reporting.

EXPERIENCE

Junior Data Analyst

Sharatha Terry Products Private Limited

📅 02/2024 - 10/2024 📍 Coimbatore

A company specializing in textile products.

- Developed and maintained interactive Power BI dashboards to monitor key supply chain metrics.
- Created and maintained data models in Power BI Desktop to support seamless reporting and analytics.
- Executed ETL processes to extract, transform, and load data from diverse sources like ERP systems and SQL Server.
- Integrated data from multiple sources, ensuring data accuracy and integrity.
- Optimized Power BI dashboards by refining queries and adjusting data models.

EDUCATION

Masters In Data Analytics

ITVEDANT EDUCATION PVT. LTD.

📅 08/2023 - 01/2024

Bachelor of Engineering - Computer Science - 8.4 CGPA

Panimalar Engineering College

📅 08/2019 - 04/2023

HSC - Computer Science - 83 %

SRV MATRIC HR SEC SCHOOL

📅 2018 - 2019

CERTIFICATION

Masters in Data Science & Analytics with AI

Itvedant Education Pvt. Ltd.

SQL

Itvedant Education Pvt. Ltd.

Data Analysis With Python

IBM

Data Visualization With Power BI

COURSERA

KEY ACHIEVEMENTS

Product Traceability Web Application with QR Code Integration

Developed a QR code-based traceability system, enhancing transparency and customer trust by providing instant access to detailed product manufacturing data.

Sales Analysis Dashboard

Successfully developed an interactive Power BI dashboard for tracking sales performance over 3 years, enhancing strategic decision-making.

Daily Production Report Dashboard

Implemented a comprehensive production report dashboard, centralized key metrics for performance monitoring.

Region Wise Sales Analysis

Conducted region-wise sales analysis using competitive data to identify market trends, benchmark performance, and uncover growth opportunities.

SKILLS

POWER BI	DAX	SQL	Data Visualization
Data Integration	Data Modeling	ERP	ETL
MS EXCEL	PYTHON	Data Analysis	

STRENGTHS

Business Acumen

Client centricity and a strong focus on business acumen to deliver results.

Execution Excellence

Adapts quickly to new challenges and technologies.

PROJECTS

Sales Analysis Dashboard for Terry Towels

📅 04/2024 - 10/2024

Interactive dashboard for sales performance analysis.

- Developed an interactive Power BI dashboard to track and analyze sales performance of Terry Towels over the past 3 years.
- Analyzed three years of sales data to identify high-value customers, uncovering trends and opportunities that increased revenue by 20% through improved customer retention and profitability..
- Implemented advanced DAX calculations for in-depth analysis, improving data-driven business planning.
- Collaborated with cross-functional teams to understand reporting needs.

Daily Production Report Dashboard

📅 04/2024 - 10/2024

Dashboard for monitoring daily production, manpower, and utilities.

- Developed a Power BI dashboard to monitor daily production performance across multiple departments, providing management with real-time insights to improve time efficiency and streamline operations.
- Consolidated key metrics in a centralized view for operational teams and management.
- Consolidated key metrics in a centralized view for operational teams, connected live databases for real-time insights, and automated report generation using Power Automate.
- Implemented dynamic filters and drill-down features for detailed insights.

Product Traceability Web Application with QR Code Integration

📅 08/2024 - 09/2024

Developed a web app for product traceability, enabling users to scan QR codes for real-time access to product details, including manufacturing information and journey.

- **Developed a web application for a traceability project**, enabling users to access detailed product information, including manufacturing date, location, and production journey
- **Integrated QR code scanning functionality**, allowing users to instantly access the product's traceability details by scanning the code on the product packaging.
- **Enhanced product transparency and customer experience** by providing real-time, reliable information about the product's lifecycle, supporting quality assurance and supply chain management.
