

SUCHETA BASAK

SAP SD CONSULTANT

✉ suchetabasak97@gmail.com ☎ +91 9836535766 🔗 <https://www.linkedin.com/in/suchetabasak-0231097sb/>

SAP SD Consultant with over 3.8 years of specialized experience in the FMCG industry, focusing on support and implementation projects. Skilled in end-to-end SD configurations, including Order-to-Cash processes, pricing, delivery, and billing, with solid expertise in Domestic and Third-Party Sales, and functional specifications. Experienced in cross-module integration with PS, MM, FI, and WM. Proficient in EDI integration and possess a basic understanding of middleware tools like SAP PI/PO, TIBCO, BOOMI, and GXS. I am currently engaged as a functional SD consultant on a major project in the elevator and escalator sector. I'm dedicated to ongoing growth and ready to use my skills to make a real impact in a fast-paced setting.

PROFESSIONAL EXPERIENCE

Pricewaterhouse Coopers Pvt. Ltd. | Associate

Aug 2023 – Present

(Project: Escalator Industry: SAP S/4 HANA Implementation)

- Led workshops with 6+ stakeholders alongside a 5-member cross-functional team to gather critical SAP S/4HANA requirements, ensuring alignment and streamlined workflows across departments.
- Worked closely with end users to collect specific requirements, developed comprehensive business process mapping, and created an integrated solution document.
- Analyzed the client's as-is processes and defined to-be business processes within S/4HANA, identifying and addressing process gaps for seamless transformation.
- Prepared functional specifications and configuration rationale documents for design and build phases, ensuring clarity and consistency in implementation.
- Configured SAP SD components, including enterprise structure and master data setup.
- Identified RICEFW objects, coordinating with ABAP developers to ensure full functionality of custom developments.

(Project: FMCG Industry: AMS project)

- Managed end-to-end processing for shipment, shipment cost documents, and delivery/picking operations, optimizing warehouse integration workflows.
- Developed logic for batch management, including shelf life and expiry tracking, working with the technical team to implement custom enhancements.
- Worked closely with ABAP resources to address fields in BAPI for sales order, delivery, and invoice creation, ensuring accurate integration between SD-MM and SD-FI modules.
- Have basic ABAP knowledge, including function modules, ABAP debugging, transport request handling, and Transfer Order Confirmation processes.

Accenture | Application Development Analyst

Feb 2021 - Aug 2023

- Configured Order-to-Cash processes, including sales orders, deliveries, post goods issues, billing, and account posting.
- Skilled in EDI processes, SAP MM, and WM material movements, with experience in handling inbound/outbound deliveries and data migration.
- Expertise in master data management and migration from legacy systems, with a strong background in Go-Live support, unit testing, system integration testing, and regression testing.

SKILLS

- Knowledge of Enterprise Structure, Basic Functions, Master Data Configuration, Order Processing, Delivery Processing, and Pricing Procedure
- Good understanding of Third-Party Sales, Intercompany Sales, and Individual PO processes
- Familiarity with special sales order types such as Rush Orders, Cash Sales, and Free-of-Charge Deliveries
- Proficient in IDoc and EDI standard mapping
- Sound knowledge of integration with PS, MM, and FI modules within the SD module
- Basic knowledge of service contracts, service orders, and maintenance orders
