

SUDARSHAN NAGESH

No. 78, 5th Cross, Bapuji Layout, Near Chandra Layout, Vijayanagar, Bangalore, Karnataka-560040
+91-814-707-1041 sudarshannagesh90@gmail.com

EDUCATION

Rice University, Houston, TX

GRA, Project: Characterization of scattering media

December, 2017

Indian Institute of Science, Bangalore, India

MSc (Engg.), Project: Determining the thickness of a thin object via parameterized-imaging

May, 2015

National Institute of Technology Karnataka, Surathkal, India

B.Tech, EEE

May, 2012

WORK EXPERIENCE AND TECHNICAL PROJECTS

Tricog Health Bangalore, India: *Data Scientist: Python programming* September 2021 - May 2023

- Identified a method to find **deviation waves** in different leads and compared the outputs with self-referenced leads.

Algos: Peak and valley based edge identification, Breakage-point identification

- Generated a **diagnosis report** containing the agreement of diagnosis obtained via two-methods.

Software: Python

- Performed case-selection based on diagnosis-codes and generated a **status report** for the agreement of diagnosis of these cases.

Software: Python

Shell Houston, TX: *Image Processing Contractor*

September 2019 – November 2020

- Developed an **image processing solution** and MATLAB application to automatically extract furnace tubes from thermal images.

Algos: Peak and valley based feature identification

- Developed an **image processing solution** to assess the quality of a sub-surface image based on the edge like noise artifacts in the image.

Algos: Peak and valley based edge identification

Zendar Inc. Berkeley, CA: *Research Engineer*

August 2018 – June 2019

- Developed software for tracing **moving-objects** via imaging-based methods.

Teamwork

- Designed tools to validate accuracy of an imaging **method** with another.

Software: Python

SKILLS

- (~ 2 years exp.) Image analysis, Python, MATLAB, Git
- (~ 2 months exp.) Mysql, PostgreSQL, DB2, MongoDB, Cloudant, Shell, Airflow, Pyspark, CV-library, Cpp, Sheets, Tableau, NoSQL, Flask, Django, HTML

RECENT ADDITIONAL COURSES

- IBM Data Engineering Professional Certificate (July, 2023)
