PROFESSIONAL SUMMARY

I am a dedicated Backend Developer with over 3 years of experience, specializing in **Python**. I have worked extensively in the **Fin-tech industry**, developing and maintaining robust backend systems. My expertise includes creating efficient and scalable APIs, managing databases, and ensuring seamless integration with frontend applications. Additionally, I have hands-on experience with frontend technologies, allowing me to contribute to full-stack development projects. My goal is to leverage my skills in backend development to deliver high-quality solutions and drive innovation in the fintech sector.

My key achievements include integrating **Razorpay APIs** for cashless transactions and collaborating with various bank and NBFC partners such as **Axis, HDFC, and Fibe** for sourcing leads. I am skilled in creating efficient and scalable solutions, and I am committed to delivering high-quality work in every project I undertake.

WORK EXPERIENCE

eSthenos Technologies Pvt. Ltd. | Software Engineer Bengaluru, India | July 2022 – Present

- **Exemplified dedication and hard work**, consistently contributing to the team's success through proactive collaboration and initiative.
- **Demonstrated strong analytical and problem-solving skills**, providing actionable feedback and innovative solutions.
- **Revamped lead sourcing architecture** by migrating from a monolithic system to agile microservices, integrating banking and NBFC partners to streamline operations, reduce errors, and accelerate development cycles.
- **Developed a modular payment framework** enabling cashless transactions (QR Code, Payment Gateway, UPI) in collaboration with Razorpay and Cashfree, enhancing payment flexibility and efficiency.
- **Enhanced user experience** by improving web applications, enabling seamless tracking of daily lead sourcing activities.
- **Built a custom monitoring system** using Stackdriver to track and alert on third-party API failures, ensuring system reliability and rapid incident resolution.
- **Independently managed the backend and frontend** for the lead sourcing project, showcasing end-to-end ownership from requirement gathering to delivering tested functionalities.
- **Implemented secure data protocols**, including AES and RSA encryption, ensuring robust protection for sensitive information.

- **Led the development of a multifunctional web platform** for lead generation, customer management, and secure form submissions, centralizing API interactions for streamlined operations.
- **Technologies utilized:** Python, Flask, MongoDB, Redis, AWS, Jinja templates, JQuery, RabbitMQ, Celery, Beats.

Brigdelabz | Full Stack Developer-Internship

Mumbai, India | January 2022 – June 2022

- Developed the USERNOTES and BOOKSTORE Application independently.
- Designed user registration, login, note management, and REST APIs for product checkout.
- Rendered JSON data from APIs for a responsive BOOKSTORE website.
- **Technologies being used:** Python, Shell Script, GitHub, Angular, NodeJS, Flask, Django, MongoDB, PostgreSQL

ACHIEVEMENTS

- **Awarded Best Employee of the Quarter at eSthenos Technologies Pvt. Ltd.(February 2024)**

TECHNICAL STACK

- Programming Language: Python, Flask and Django framework
- Frontend Technologies: Jinja Template, Angular, Reactjs(basic)
- Web Development(HTML5, CSS3, JavaScript, jQuery, Jinja template, AJAX)
- Database : MongoDB and SQL
- DataStructure
- Tools & Platforms: Git version control system/Bitbucket, GitHub, Postman

EDUCATION

- **Shri Shankaracharya Engineering College, Bhilai Chhattisgarh**
Bachelor Of Engineering, Computer Science and Engineering, 2019
- **KHM Senior Secondary School, Bhilai Chhattisgarh**
12th (CBSE), 2015

CERTIFICATION

- **Full Stack Development** , JSpiders, Bangalore. (The course contains Python, Web Technologies with flask framework and MongoDB and Git) | 6 month training during the year 2021-2022
- **Web Development**, Seed it solution, Bhilai, from Jun 2018 - Aug 2018
- **Core Java**, Inetsolv Technologies, Hyderabad , from Jun 2017 - Jul 2017
