Profile Summary

Experienced PHP Developer with 7 years of expertise in building dynamic and efficient web applications. Proficient in PHP frameworks like Laravel and CodeIgniter, with a strong focus on clean code, scalability, and security. Skilled in front-end technologies, database management, and API integrations. Committed to delivering high-quality solutions and continuously enhancing technical skills to stay ahead in the industry.

Skills

PHP, CodeIgniter, Laravel, Node JS, MySQL, PostgreSQL, JavaScript, jQuery, HTML, CSS, Bootstrap, AJAX, REST API

Experience

Sakhatech Information Systems Pvt. Ltd Jan 2022 - July 2024
Senior Software Engineer Bangalore

- Executed complex tasks using PHP and Laravel, resolving critical errors to ensure seamless project operations and minimal downtime.
- Engaged with clients to gather requirements, translating them into technical specifications using JavaScript, HTML, and CSS, ensuring alignment with business objectives.
- Designed and implemented new features and functionalities in web applications, utilizing jQuery and Bootstrap to improve user experience and engagement.
- Conducted comprehensive code reviews for MySQL and PostgreSQL applications, upholding best practices and coding standards to foster a culture of quality.
- Collaborated with cross-functional teams to deliver high-quality software solutions using Node.js and Laravel, ensuring projects were completed on time and within budget.
- Optimized application performance and refined database queries in MySQL and PostgreSQL, resulting in improved efficiency and reduced load times.

SMTGROUP June 2017 - Nov 2021
Php Developer Indore

- Executed development tasks in Core PHP, CodeIgniter, and Laravel to meet project deadlines while adhering to high-quality standards.
- Deployed applications to various hosting platforms, including GoDaddy, Hostinger, Namecheap, and AWS, ensuring reliable performance and accessibility.
- Designed and developed RESTful APIs using Laravel and CodeIgniter for seamless integration with front-end applications, enhancing functionality and user experience.
- Troubleshooted and resolved issues in existing applications built with Core PHP and Laravel, significantly enhancing user experience and application stability.
- Assisted in the architectural design and planning of new projects, focusing on scalable solutions using CodeIgniter and RESTful API methodologies.
- Ensured application security by implementing best practices in PHP development and conducting regular audits to identify vulnerabilities.

Education

Master Of Computer Application (MCA) RGPV Technical University, Bhopal

Beachelor Of Computer Application (BCA) RDV University, Jabalpur

Projects

Event Management and Volunteer Coordination Platform.

Developed a platform for posting events with specific needs, such as requiring volunteers. Organizers can create and assign tasks to volunteers, who can then invoice for completed tasks. Publishers can post news and events, while admins can adjust event pricing.

Technology : Laravel (REST API), PgSQL

Travel Booking System

Worked on a travel portal project, managing flight and hotel booking systems through third-party API integration. Successfully integrated payment gateways to streamline the booking process, ensuring secure and efficient transactions.

Technology : CodeIgniter, MySQL, jQuery, JavaScript, Ajax

Domain Expertise

E-commerce , Hospitality , Travel & Booking , School Management , Event Management , Cab Services , Tracking System , Finance loan system
