Professional Summary

- Driven and detail-oriented **Software Engineer** with 1.5+ years of professional experience in **software development** and **database management**. Proficient in **Java**, **SQL**, and **.NET frameworks**, with expertise in developing **ERP systems**, **business intelligence dashboards**, and optimizing database performance. Recently upskilled with a **Java Full Stack Development course**, gaining expertise in **Spring Boot**, **MySQL**, and modern web development technologies. Known for adaptability, problem-solving, and delivering impactful solutions.

Key Skills

- Programming Languages**
Java, C#, C++, SQL
- Frameworks & Tools**
Spring Boot, .NET, Crystal Reports
- Database Management**
MySQL, Stored Procedures, Query Optimization
- Software Development**
Agile Methodologies, REST APIs, Microservices, Troubleshooting
- Project Management**
Team Collaboration, Client Communication, Business Process Automation

Professional Experience

- Inode Technologies (June 2022 - January 2024)**
Software Engineer
 - Built and deployed **scalable enterprise applications**, enhancing client operational efficiency by **25%**.
 - Designed and optimized **SQL stored procedures**, reducing query execution time by **30%**.
 - Updated and enhanced features in pre-developed client projects (e.g., **AccentTool**, **Carl-Becam**, **ICAR**), ensuring alignment with client requirements and business goals.
 - Developed **business intelligence dashboards** using **Crystal Reports** for data-driven decision-making.
 - Collaborated with cross-functional teams to troubleshoot and resolve software issues.

Academic Internship

- CISCO** (March 2022 – June 2022)
 - Configured and optimized **network systems** as part of a project to improve system reliability.
 - Assisted in designing and implementing **IT solutions** to streamline business operations.
 - Gained practical exposure to **networking concepts** and **real-world system configurations**.

Key Projects

- Billing ERP Software**
Client: IIHR-ICAR
 - Automated billing processes using **C#**, **MySQL**, and **Crystal Reports**, reducing errors by **40%**.
 - Designed a user-friendly interface and a robust database architecture for efficient data Management.

- **Client Project Enhancements**
 - Updated and customized features in existing software solutions for clients such as **AccentTool** and **Carl-Becam**, ensuring solutions met evolving business requirements.
 - Improved application functionality and resolved client-reported issues, enhancing customer satisfaction
- **Automatic Gas Booking and Leakage Detection System (Academic Project)**
 - Created a real-time monitoring system with **Java, MySQL, and IoT devices** to detect gas leakage and automate bookings.
 - Enhanced safety through continuous monitoring and automated alerts.
- **Inventory Management System (Personal Project)**
 - Developed a standalone inventory management application during recovery using **C# and MySQL**.
 - Implemented key features like stock tracking, automated alerts, and reporting for business efficiency.

Certifications & Training

- - **Certified Java Full Stack Developer:** KodNest (March 2024 – September 2024)
 - Gained hands-on experience with **Spring Boot, MySQL, HTML, CSS, and JavaScript**.
 - Completed advanced workshops on **SQL** and **.NET** technologies.

Education

- **Academy For Technical And Management Excellence ,Mysore** 2019-2022
Bachelor of Engineering (Computer science and Engineering)
CGPA: 7.75
- **Smt.L.V.Polytechnic Hassan** 2016-2019
DIPLOMA(Computer science and Engineering)
Percentage 60.5
- **St.joseph High School Hassan** 2016
SSLC(High School)
Percentage 79.25

Career Break Explanation

- **Career Break (January 2024 – October 2024)**
 - Took a career break following an accident and focused on recovery.
 - Utilized the time productively to complete a **6-month Java Full Stack Development course**, gaining expertise in **modern web and enterprise application development**.

Additional Information

- - **Languages:** English, Hindi,Kannada
