CAREER OBJECTIVE

I aim to contribute to organizational growth through scalable and secure cloud solutions while advancing my technical skills and knowledge. I am committed to impactful, solution-driven contributions that support both career and personal development.

SKILLS

Programming : Python

Cloud Tools : Compute, Network and Storage, IAM Services, Alerting, CloudWatch, VPC, CI/CD, DevOps, Docker, Amazon Lex, Amazon QuickSight, AMI, AWS Marketplace publishing, AWS Cloud, Azure Cloud, Azure Active Directory,

WORK EXPERIENCE

Associate Cloud Consultant

July 2021 – March 2023

- Spearheaded cloud initiatives for educational institutions like Seneca and UC College of Engineering, ensuring uninterrupted services to over 1000 students for three consecutive semesters.
- Developed, Configured, Maintained compute and other resources on Azure Cloud.
- Worked on Automation in AWS CloudFormation template Designed and configured networking infrastructure (Virtual Networks, subnets and network settings).
- Managed a technical team of 2 and supported a team of 10-18 members as L2 Technical Support, handled cost and service usage alerts, debug the errors which support team is unable to resolve as per SLA.
- Successfully published custom AMI offers in AWS Marketplace.
- Developed and launched a custom product for Anonos in AWS Marketplace, adhering to best practices and guidelines.
- Efficient with Research, Implementation and Delivery on new cloud technologies.
- Extensively used PowerBI to keep a track on resource usage and costs.
- Regular interaction with Customers to keep them updated to project progress.

Cloud Intern

March 2021 – June 2021

- Acquired in-depth knowledge of AWS and Azure resources and implemented resource deployment automation using Cloudformation template.
- Contributed to the Azure Quickstarts project, enhancing the Azure Master Repository.

EDUCATION

Masters in Information Technology and Systems Manager
Narsee Monjee Institute of Management Studies, Mumbai

2022 - 2024

Bachelor of Science (Research) in Computer Science (Specialization in Cloud Computing and Big Data)
REVA University, Bangalore

2017 - 2021
CGPA: 8.42

CERTIFICATIONS AND ACHIEVEMENTS

- Certified in Azure by Microsoft
- Python Certified by MTA

PROJECTS AND PUBLICATIONS

Title - Seneca College

Objective : To curate a lab environment for 1000+ students, monitor their usage and provide support with the issues encountered

Solution :

- Created Arm templates to automate the deployment of resources for 1000+ students
- Headed the project for consecutive 4 semesters, serving 1000+ students with 90% success rate
- Monitored Costs for each student account using Azure Cost Management, CloudLabs Portal and PowerBI Report

Title - UC School of Engineering

Objective : To curate a lab environment for 70 students and support with the technical issues resolutions.

Solution : Created and deployed Arm templates to automate the deployment of resources and help with technical issues as per SLA.

Title - Anonos (AWS Marketplace Publishing)

Objective : To curate a custom image product and make it available in AWS Marketplace

Solution :

- Deployed CloudFormation Template to automate the deployment of EC2 instance and other resources
- Created Custom AMI (Amazon Machine Image) and published it in AWS Marketplace

Personal Projects-

Title - Centralized image for CloudLabs

Objective : To curate a custom centralized image

Solution :

- Created centralized image using base functions for all lab tracks to be used in CloudLABS using PowerShell Scripting which cuts down on execution time

Title - ChatBot

Objective : To create a simple ChatBot which functions on fed data

Solution :

- Build a Chatbot using Amazon lex, integrating Python script using Lambda

Title - Custom AMI Publishing

Objective : To create a custom AMI and list it in AWS Marketplace

Solution :

- Worked on Custom AMI publishing Created Custom AMI and made it available in AWS Marketplace, following best practices and security guidelines.

LANGUAGES

English (Fluent), Hindi (Fluent)
