WORK EXPERIENCE

CCTech Pvt.Ltd **Pune, India**

Member of Technical Staff Dec 2023 - Nov 2024

- * Developed and tested a connector to render data across different **geometric tools** using **C++14**, **STL**, **Boost** library, and **Design Patterns**, incorporating **multithreading** techniques.
- * Documented code for Autodesk products and updated **legacy 'C' code** in a **Linux** environment.
- * Experienced in **Qt** framework, **MongoDB**, **TypeScript**, **C#** WPF, **MS-SQL** and created **computational geometric libraries** in **Python3**.
- * Developed the **UI from scratch using ReactJS**, integrated it with **MongoDB** to store data for each **CAD** file, and created **RESTful APIs** in **NodeJS**, supporting data exchange.

VNMT Solutions **Pune, India**

NetSuite Developer Intern July 2023 - Dec 2023

- * Successfully implemented a range of scripts, including **ClientScript**, **Scheduled**, **MapReduce**, **UserEvent**, **SuiteBuilder**, and **Suitelet**, within the **NetSuite** platform.
- * Utilized scripting techniques in NetSuite to dynamically generate CSV files, providing valuable insights into the **Enterprise Resource Planning (ERP)** flow, including the O2C and P2P process.
- * Leveraged a combination of HTML, CSS, XML, and **JavaScript** to create **customized PDF files** within NetSuite for improved **data visualization** and reporting.
- * Integrated NetSuite with external systems using **REST web services & Celigo**, and participated in **data migration** and ensuring data integrity and accuracy throughout the migration lifecycle.

PROJECTS

Generic Library - C11 & C++14

Developed a comprehensive **C library** modeled after **C++ STL** and **Java Collection Classes**, designed to offer fundamental data structures such as linked lists, stacks, & queues and also allows to manage a wide range of custom data types as well.

HR Management System - Java, Swing, JDBC, MySQL, HTML, CSS, JavaScript

Developed a **Java-based** application for managing employee data according to designated roles. First phase is a **layered desktop application**. JDBC connectivity was done to facilitate data interactions. In the second phase, the project is made to **web application**, hosted on **Apache Tomcat** and tested via **HTTP** methods. The entire application was designed with the **Singleton Pattern**.

Augmented Reality Application - C#, Unity, Vuforia SDK, Android Studio SDK

Created an app for pre-primary kids to understand foundational concepts using **AR/VR technology**.

Users can scan images, and the app displays corresponding audio-video visuals on the screen.

The project was **published** in **METSZET Journal, Vol-8, Issue-6, June-2023**, under the guidance of their professor.
