

SUSIL KUMAR PARIDA

Bangalore, India 560049 | +919632220778 | susil.parida01@gmail.com | [LinkedIn](#)

Summary

Dynamic Software Engineering Leader over **18 years** of experience in **QA and automation** for Fortune 500 companies. Expert in optimizing SQA and testing processes, leading **high-performing teams**, and implementing **DevOps** and automation strategies that enhance efficiency and accelerate product delivery. Proven ability to ensure compliance with **Automotive SPICE standards** and establish robust **cybersecurity practices**, significantly improving system integrity and quality. Adept in **strategic planning, mentoring**, and fostering **cross-functional collaboration** with a strong focus on customer satisfaction and product mindset.

LinkedIn Recommendation:

"Susil is a very committed person for whatever mission he takes up. He is very knowledgeable and a quick learner."
~ **Anish Cheryan**, PhD, VP, Harman International, IEEE Sr. Member.

"Susil is a very dedicated team member, he has good knowledge in Testing, Cyber Security and overall E2E SW development Process. His contribution in Agile transformation and Test process definition initiative is highly appreciable."
~ **Suresh Babu Sathiyakumar**, Senior Principal Engineer, Harman International, IEEE Sr. Member

Skills

- Product & QA Management:** Agile Methodologies (Scrum, Kanban), BDD, TDD, Strategic Test Planning & Execution, Test Automation Strategy & Architecture, End-to-End Quality Assurance, Iteration & Release Planning, Performance Metrics & Continuous Improvement.
- Technical Proficiency:** Programming: Python, Java, JavaScript; Automation Tools: Selenium, Appium, PyTest, Robot Framework; CI/CD: Jenkins, Git, GitHub, Artifactory; IDEs: PyCharm, IntelliJ, Eclipse, Visual Studio; API & RPA Testing, JIRA, Rally, ALM, AI/ML
- Domain:** Automotive Infotainment, Telecom, Embedded Systems, Web & mobile Applications, and Cyber Security
- Cloud & DevOps:** AWS, Docker, Kubernetes, Ansible, SRE & Distributed Systems.
- Security & Compliance:** Cyber Security Best Practices, STRIDE Risk Assessment, ASPICE Compliance & Audit, Test Process Improvement & Cost of Quality (COQ) Strategies.
- Generative AI:** Predictive Test Analysis, Microsoft 365 Copilot, Prompt Engineering.
- Leadership & Communication:** Mentorship, Team Development, Effective Communication, Stakeholder Engagement, Strategic Planning, High-Performance Team Management, Customer Satisfaction.

Experience

Principal Engineer II Harman International	03/2023 to 09/2024 Bangalore, KARNATAKA
Transformative Automation Leader: Championed the integration of process automation within DevOps CI/CD pipelines, achieving a 30% reduction in deployment time and a 40% increase in release frequency, significantly enhancing operational agility. Collaborative Innovator: Orchestrated a high-performing test team to engineer over 300 reusable test cases and robust automation frameworks in partnership with Cyber Security teams, resulting in a 50% boost in testing efficiency. Strategic Risk Mitigator: Spearheaded Failure Mode and Effects Analysis (FMEA) for Car Audio System architecture, collaborating with cross-functional teams to identify and neutralize risks, leading to a 25% reduction in post-launch defects. Compliance Visionary: Spearheaded adherence to Automotive SPICE requirements for critical Harman projects, achieving 100% compliance during audits and significantly elevating quality standards organization-wide. Customer Engagement Strategist: Cultivated and fortified client relationships through strategic customer visits and synergistic collaboration with Sales and Delivery teams, resulting in a 20% increase in customer satisfaction scores and a 15% uplift in repeat business.	

ASC (Manager) Tata Consultancy Services	10/2021 to 03/2023 Bangalore, India
• Dynamic Project Coordinator: Orchestrated collaboration among 10+ project leads and diverse teams, achieving a 20% boost in delivery efficiency. • Strategic SME Authority: Guided 5 Subject Matter Experts to analyze implementations, negotiating schedules with the BT Team to accelerate timelines by 15%. • Stakeholder Engagement Specialist: Cultivated relationships with 15+ key stakeholders, aligning product development automation needs and enhancing satisfaction by 30%. • Transparent Performance Advocate: Delivered progress reports and maintained KPI transparency, reducing project risks by 25%. • Resource Alignment Strategist: Coordinated staffing with Delivery Partners to align 100% of required skills, optimizing effectiveness and improving outcomes by 20%.	
Lead Platform Automation Engineer Vocera Communication Pvt. Ltd.	09/2014 to 08/2021 Bangalore
• Requirements Gathering Expert: Collected product automation requirements and defined scope, leading to optimal tool selection for testing and increasing efficiency by 25%. • Tool Evaluation Specialist: Conducted comprehensive evaluations of testing tools, ensuring the selection of the most effective solutions for functional, web, and API testing. • Framework Architect: Designed and implemented a robust testing framework, successfully automating over 1500 test cases with streamlined reporting, enhancing test coverage. • Agile Scrum Master: Estimated and monitored test script timelines, reducing sprint delays by 30% through effective daily scrums. • Continuous Improvement Advocate: Championed skill development and training for team members, driving enhancements in automation capabilities, overall team performance, improving test accuracy and reliability by 40%.	
Lead Product Engineer Symphony Teleca Pvt. Ltd.	03/2011 to 08/2014 Bangalore
• Developed automation frameworks and test scripts in Python and Selenium. Acted as SPOC for client coordination, created test plans, and improved quality, achieving a 30% reduction in UAT defects.	
Associate IT Consultant ITC Infotech Pvt. Ltd.	05/2008 to 03/2011 Bangalore
• Prepared test reports and release notes, conducted functional, UI, and regression testing, reviewed team test cases, and reported bugs via AOL-BLT, enhancing overall testing accuracy by 25%.	
Software Test Engineer Financial Objects India Pvt. Ltd.	06/2006 to 03/2008 Bangalore
• Served as SPOC for my module, leading client calls, preparing test plans, executing tests, reviewing team cases, and reporting bugs via Quality Center.	

Education

B.E. in Mechanical engineering KITS	2001 Bhubaneswar, Odisha
M. Tech in Software Engineering BITS	2025 Pilani, RJ (Pursuing)

Certifications

- Advance Full Stack Development & Specialization in Python for Data Science, IIT Roorkee, UT
- Post Graduate in General Management, IIM Nagpur, MH
- Atlassian Agile Project Management Professional Certificate
- OpenEDG Python Institute: Programming with Python Professional Certificate
- DevOps Professional Certificate by PagerDuty and LinkedIn
