- Good understanding of Test Planning, Test Design, Test Execution.
- Basic knowledge of **Power Automate** RPA Tool
- Basic knowledge of **SAP Automate**

WORK EXPERIENCE

- **SOA IT** - (June 2022- Present)

PROJECT EXPERIENCE

Client : SOAIS Recruitment Team (REC 1.0)

Tools : UiPath Studio, UiPath Orchestrator, Naukri.com, Linked In, Chat GPT, API Keys.

Duration : June 2023 – September 2023

The project's goal is to develop an automated solution for the process of assisting the procurement team in short listing the correct candidate on the basis of the Job Description provided and making it out Grading on the basis of candidate's skills through Chat GPT Mechanism

Key Responsibilities:

- Coordinate as a Developer in a Team
- Connecting with business for understanding their requirements
- Coordinating with BA in completing the PDD.

Client : Applied Materials (US)

Project Name: Intercompany Autopayment Procedure

Tools : UiPath (RE-Framework, Orchestrator) and SAP ECC

Duration : October 2023 – Present

The goal of the project is to create an automated solution for the process by segmenting it into various modules to perform initial filtering in SAP, line-item blocking and unblocking based on variants in SAP, and settlement file reconciliation. These modules will then perform re-class in SAP, which will be followed by bank charges offset, and will create a reconciliation report at the end of the process.

Key Responsibilities:

- Coordinate as a Developer in a Team
- Creating an automated solution for the process
- Solving the issue on the basis of business requirements.

INTERNSHIP

- Internship at Web Skitters for around 4 months on the IOT (Internet of Things). (January 2020 – April 2020)

UiPATH COMMUNITY

- Being a part of UiPath Kolkata Community
