

ASSISTANT MANAGER

MBA-qualified professional with 5+ years of experience in key account management, customer success, and account growth across enterprise clients in Europe. I have managed post-sale relationships, driven onboarding and adoption, and built structured account growth plans that supported €500K+ in upsell pipeline and €2M+ in renewals. Comfortable working with Salesforce and Dynamics 365, I track account health, lead QBRs, and partner with sales, solution, and delivery teams to drive retention and expansion. I focus on building long-term customer relationships and translating service outcomes into measurable business value.

STRENGTHS AND EXPERTISE

Account Management — Key Accounts, Stakeholders

Account Expansion — Upsell, Cross-sell

Customer Adoption — Onboarding, Usage

Customer Health — KPIs, Renewals

CRM Management — Dynamics 365, Salesforce

Cross-functional Delivery — Sales, Solutions, Finance

PROFESSIONAL EXPERIENCE

HCLTech, Pune

June 2022 - Present

Assistant Manager

GTM Strategy

- Designed **GTM playbooks** for Europe TTLH & Retail industries, covering ICP, customer segmentation, and sales enablement, resulting in a 5% lift in lead-to-opportunity conversion.
- Conducted market analysis and **competitive benchmarking** using to map industry trends, driving opportunity mapping and stronger value propositions.
- Executed **digital outreach campaigns**, supported **Innovation days** with the Industry Principal to drive demand generation, client engagement, and solution visibility.
- Developed a **central knowledge hub** with case studies, ROI calculators, and battle cards for industry-specific solutions, & delivered sales enablement training to accelerate deal cycles.
- Published **whitepapers** and **industry insights** with clients to drive thought leadership and strengthen HCLTech's positioning on Digital transformation.
- Drove new-logo hunting through **outbound prospecting** and partner-led leads, converting target EU accounts into qualified pipeline opportunities.

Sales and Account Management

Account scope: 20+ EU enterprise accounts | €2M+ portfolio | TTLH & Retail

- €500K+ in upsell and cross-sell pipeline by analyzing Dynamics 365 data, segmenting 20+ accounts, and aligning proposals with customer roadmaps and industry priorities.
- Managed annual **renewals** and **SOWs** for accounts, tracking milestones in Dynamics 365, coordinating with legal and finance, and closing renewals ahead of contractual timelines.
- Drove **AWS partner co-sell motions** and joint GTM campaigns, collaborating with AWS teams to expand pipeline and position cloud transformation solutions across EU enterprise accounts.
- Developed **account growth plans** for 10+ strategic accounts, including organization maps, risk registers, and post-implementation KPI dashboards to support senior stakeholder expansion discussions.
- Drove lead generation and pipeline tracking using **Salesforce**, monitoring campaign performance and aligning closely with industry and delivery teams to progress qualified opportunities.
- Owned post-sale customer relationships, leading **onboarding** and **adoption reviews** to ensure consistent usage, engagement, and value realization across assigned accounts.
- Monitored **customer health metrics** covering usage trends, engagement levels, and renewal risk, and resolved issues through coordination with sales, solution, and delivery teams.
- Acted as a customer advocate, consolidating **structured feedback** from **reviews** and operational touchpoints to improve service delivery and solution alignment.
- Led **Regular timely business review** with **senior stakeholders**, reviewing performance against KPIs, sharing best practices, and identifying expansion and reference opportunities.

Process Optimization & Lean Methodologies Implementation – Automobile Industry, USA

- Mapped manufacturing processes and designed advanced efficiency metrics to identify bottlenecks, enhancing operational visibility for strategic decision-making.
- Performed motion study analysis using recorded operations, uncovering **Non-Value-Added** (NVA) activities that impacted production efficiency.
- Applied Basic **MOST** (Predetermined Motion Time Study) to estimate standard activity times, optimizing workforce utilization and cycle times.
- Leveraged Pareto Analysis (80/20 rule) to prioritize inefficiencies, developing targeted action plans for performance improvement.
- Implemented Lean tools such as **5S, MUDA, MURI**, Spaghetti Diagram, Golden Zone-Strike Zone, and Line Balancing to streamline operations.
- Developed **As-Is** vs. To-Be process reports and SOPs, enabling continuous KPI measurement and process refinement.

Impact & Business Value Delivered

- Boosted productivity by 13% through cycle time optimization, reduction of non-value-added activities, and implementation of Kaizen for continuous improvement.
- Redesigned plant layout, improving material flow and reducing floor space usage by 16%, while driving Lean-based process enhancements that delivered \$8K in annual cost savings and enhanced operational efficiency.
