EXPERIENCE

- **Synopsys (SIG)** Bangalore, Karnataka
Senior Software Engineer *October 2023 – Present*
 - Software Developer in the Compliance Team, working on commercial static code analysis tools such as Coverity and Sigma, ensuring adherence to industry standards and improving code quality.
 - Integrated new compilers and provided ongoing support for existing ones within the Coverity platform, ensuring smooth functionality and enhanced performance.
 - Implemented security checkers for programming languages like C/C++, Java, and Python, ensuring compliance with the latest security standards and best practices.
- **Cisco Systems** Bangalore, Karnataka
Software Engineer II *August 2022 – October 2023*
 - Worked with software development and testing team members to design and develop cloud-native microservice-based 5g core Network functions.
 - Managed CNDP (Cloud-Native Deployment Platform), SMI (Subscribers Microservices Infrastructure), and Kubernetes-based HA System Test Rack to deploy and perform build validation and System Testing.
 - Participated in architecture, design, and implementation of the Chaos Armor tool for one-touch deployment and resiliency testing.
- **Ancient Labs pvt ltd** Raipur, Chhattishgarh
Software Engineer *June 2019 - July 2020*
 - Developed and implemented a research-based medical application leveraging Artificial Intelligence, backed by the Government of Chhattisgarh and CHiPS, to enhance healthcare solutions.
 - Developed machine learning models and data processing frameworks for classifying pregnancy cases, aimed at addressing infant mortality, as part of a government-backed AI healthcare project.

SKILLS

- **Programming Languages:** C/C++, Python, JAVA, OOPs
- **Tools and Technologies:** Git, Linux, Docker, Kubernetes
- **Core Competencies:** Problem-Solving, System Design, Data Structures and Algorithms, Operating Systems, Computer Networks, Compiler Design, Database Management Systems, Machine Learning, Networking

EDUCATION

- **National Institute of Technology Calicut** Kozhikode, Kerala
Master of Technology in Computer Science and Engineering *August 2020 - June 2022*
- **New Government Engineering College** Raipur, Chhattishgarh
Bachelor of Technology in Computer Science and engineering *July 2015 - May 2019*

PROJECTS

- **Credential Verification System using Blockchain and IPFS**
 - Developed a private Blockchain and IPFS network to publish verifiable educational credentials.
 - Analyzed system performance using various consensus algorithms and published a comprehensive report.
- **Mother and Child Care Application**
 - Classified over 10000 pregnancy cases into low, medium, and high-risk categories with 93 percent accuracy using deep learning techniques
 - Achieved Runner-up position out of 150 teams in the SkyHack hackathon organized by the Government of Chhattisgarh.

PUBLICATION

- A Blockchain-Based Credential Verification System using IPFS 2022 IEEE 19th India Council International Conference (INDICON), Kochi, India.
