OBJECTIVE

I am eager to apply my skills in building innovative, user-friendly applications while continuously learning and contributing to the success of a dynamic team in a challenging and growth-oriented environment.

EXPERIENCE

Software Engineer Trainee, [NeyaaTek](#)

10.2024 - Present | Remote

- Contributed to the development of Rafflerra, a platform automating raffles with features for customer management, timed draws, and transparency, enhancing user engagement for events like fundraisers, promotions, and social gatherings. Focused on delivering seamless and creative solutions.

SDE Intern, Caravel.Tech

10.2023 - 05.2024 | Remote

- Contributed to the development of user-facing and admin web applications for an EdTech platform, building responsive and interactive UI components while managing state using React and Redux for a seamless user experience. Integrated 40+ RESTful APIs for authentication, course management, user profiles, progress tracking, caching, notifications (Firebase), and payment gateways .

TECHNICAL SKILLS

Frontend	React.js, Next.js, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, Django, WebSockets
Database	MongoDB, Mongoose, MySQL
State Management	Redux, Context API
Authentication	JWT, OAuth

PROJECTS

ShoppersCart

[Try it here](#)

- MERN-based e-commerce platform with authentication, product management, and responsive design.
- Includes features like secure login, password reset, product search, wishlist, cart, and order history.
- Built with React.js, Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, and JWT-based authentication.

ChatPulse

[Try it here](#)

- Full-stack real-time chat application supporting one-to-one and group messaging.
- include real-time messaging, friend management, typing indicators, file uploads, and unread message tracking.
- Built with Next.js, TypeScript, React, Redux Toolkit, Node.js, Express, MongoDB, Pusher, and Cloudinary.

PyBot

[Try it here](#)

- Python-based chatbot for answering Python-related programming queries using NLP and machine learning.
- Features include voice input, user signup/login, and relevant Python responses.
- Built with Django, Python, and the NLTK library for natural language processing.

COURSES & CERTIFICATIONS

- Full Stack Web Development** - Harkirat (2023)
- Backend with Python and Django** - Coursera (2023)
- Data Structures And Algorithms** - Udemy (2021)
