### Core Competencies

|                              |
|------------------------------|
| Competitive coding           |
| DevOps Methodologies         |
| Low Level Design (LLD)       |
| Puzzles and Riddles solving  |
| Agile methodologies          |
| Scrum processes              |
| Software architectures       |
| Algorithm and Data Structure |

### Profile Summary

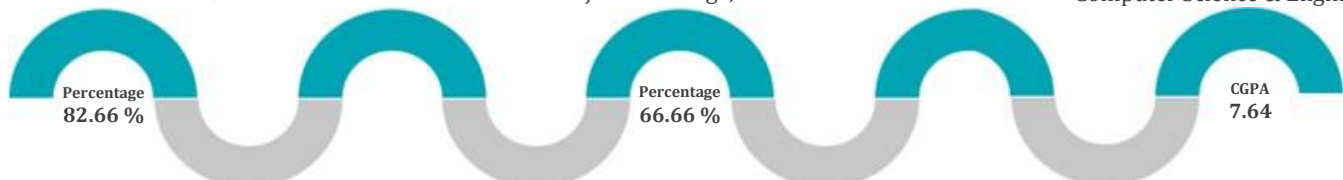

- 🔧 Having 2.5 years of experience in **Express.js** framework using **Node.js**.
- 🔧 Good knowledge in **Redis**, **TypeScript** and **NestJS**.
- 🔧 Experienced in following DevOps methodologies which uses CI/CD tools such as **Jenkins**, **Kubernetes**, **Docker**, **GitHub** etc.
- 🔧 Sound knowledge on **core Java** (oops concepts, exception handling, collection, Multi-threading, JDBC etc.).
- 🔧 Proficient in DB management, **SQL** (constraints, SQL queries, DDL, DML, TCL, Joins and its types.) concepts.
- 🔧 Working knowledge on **Kafka** and **UNIX commands**.
- 🔧 Experienced in handling **LLD** such as **data structure**, **design patterns**, **OOPs**, **schema design** etc.
- 🔧 Well versed with different type of architectures say **microservice**, **monolithic**, **master-slave** etc.
- 🔧 Strong logical thinking, ability to see a product from different perspective and very good on Puzzles & Aptitude solving.
- 🔧 Having good hands on with competitive coding using C and C++ concepts.
- 🔧 Experience in following **Agile Methodologies** and **Scrum Processes**.
- 🔧 Well exposed to project management tool **Jira** and team collaboration platform **Slack**.

### Academic Profile

Matriculation  
Vivekananda Shiksha Kendra, BBSR

Intermediate  
Rajdhani College, BBSR

Bachelor of Technology  
Veer Surendra Sai University of  
Technology (VSSUT), Burla  
Branch  
Computer Science & Engineering

## Key Skills

Express.js using Node.js

Kubernetes Docker & CI/CD

Redis, TypeScript & NestJS

Core Java concepts

SQL and DB management

PM Tools: JIRA

## Extracurricular Activities

Core member of technical event organizing committee.

Technical core member of VSSUT (2019 - 2024) coding club ENIGMA

## Work Experience

**Software Development Engineer (Backend) at NCompass Tech Studio Pvt. Ltd. (May 2022 – till date)**

**Domain:** B2B E-Commerce

### Description:

Working on PhoneX project which is a B2B web application used for making dealing and making communication between wholesaler and retail shops.

### Key Responsibilities:

- Developed and maintained backend services using Node.js, creating RESTful APIs to handle business logic, data retrieval, and processing.
- Integrated JavaScript frameworks and libraries to enhance dynamic functionality and provide seamless user experiences on the e-commerce platform.
- Managed database connections, schemas, and optimized MongoDB queries to ensure efficient data handling and storage for product catalogues, user data, and orders.
- Implemented caching strategies, optimized server response times, and minimized loading times to improve user experience and scalability for high-traffic periods.
- Wrote unit and integration tests for Node.js and JavaScript code, and actively debugged and resolved issues to ensure functionality and reliability of the platform.
- Worked closely with UX/UI designers, product managers, and other developers to plan, design, and implement new features and improvements based on business requirements and user feedback.
- Utilized Git for version control, maintained branching strategies, and contributed to continuous integration and deployment pipelines to streamline development and deployment processes.
- Up to date knowledge of industry trends and best practices to continuously improve the development process and stay tuned with emerging technologies.
