PROJECTS

HR Analytics Dashboard

Rubixe || NOV 2023 – DEC 2023

- During the Internship at Rubixe as a Data Analyst I worked on a project and I implemented a predictive analytics model to forecast employee turnover, allowing proactive retention strategies.
- Designed a dashboard for real-time monitoring of key HR metrics, facilitating data-driven insights for management.
- Conducted sentiment analysis on employee feedback data to gauge overall job satisfaction and identify areas for improvement.

PROFESSIONAL EXPERIENCE

Data Analyst Intern

National Finance Olympiad || Aug 2024 – Present

- Conducted end-to-end operations, including data collection, cleaning, and maintaining metrics in Excel.
- Collaborated with the growth team to ensure timely delivery of operational tasks.
- Utilized software tools like Alteryx to announce school results and streamline reporting processes.

Business Development Associate

Urban Company || Jan 2024 – May 2024

- Identifying and onboarding new service professionals to join the Urban Company network
- Developing and maintaining relationships with key stakeholders, fostering long-term collaborations
- Collaborating with cross-functional teams to ensure smooth onboarding and seamless service delivery

Data Analyst Intern

Rubixe || Aug 2023 – Dec 2023

- Presented findings through clear visualizations, such as charts and graphs, to effectively communicate patterns, trends, and actionable insights to team members.
- Utilized tools such as Python, or SQL to clean and transform data, ensuring the dataset's integrity and reliability for subsequent analysis.
- Created interactive dashboards using Tableau and Power BI to visualize key performance indicators and provided actionable insights for senior management
