

Tejaswini Gandhi

Summary

Senior Associate Data Scientist with 2 years of experience at the National Payments Corporation of India (NPCI), skilled in the data-to-AI process from exploratory data analysis (EDA) to deployment. Experienced in machine learning, deep learning, natural language processing, transformers, large language models (LLMs), and model finetuning.

WORK EXPERIENCE

Senior Associate Data Scientist - National Payments Corporation of India [Sep '22 - till date]

- **Project:** Developing a Conversational Payment Experience on the BHIM App in Indic Languages.
- Implemented a production-grade voice pipeline consisting of three key components: Automatic Speech Recognition (**ASR**), Intent Classification (**IC**), and Named Entity Recognition (**NER**). These pipelines are live on the BHIM App for Hindi, English, Telugu, and Tamil.
- Currently, working on Development of voice for 10 Indian Languages.
- Fine-tuned **BERT** and **MURIL** models for robust Intent and Entity recognition, ensuring high accuracy in understanding user requests.
- Optimized model latency by converting them to **ONNX** and **TRT** formats and deployed them using **TRITON**.
- Worked on various **translation** and **transliteration** (**indic-transliteration**, **IndicXlit**, **IndicTrans2**, **Aksharamukha**, **indicate**) models.
- Integrated Python code into the pipeline for extracting numerical values from sentences, enhancing accuracy in amount extraction.
- Developed and maintained a streamlined pipeline to integrate all models, ensuring efficient flow and processing.
- Created a scalable API using Flask, facilitating easy deployment and accessibility of the voice recognition feature.
- Dockerized the entire pipeline to streamline deployment.
- Utilized Python libraries such as **spaCy**, **NLTK** and **Stanza** for entity extraction.
- Gained basic knowledge of Large Language Models (LLMs).

EDUCATION

BTech	[2018-2022]
QIS COLLEGE OF ENGINEERING AND TECHNOLOGY, ONGOLE	9.0
Intermediate	[2016-2018]
SRI MEDHAVI JUNIOR COLLEGE, CHIRALA	94.7%
SSC	[2015-2016]
ST. JOSEPH HIGH SCHOOL DESAIPET	9.5

CONTACT

SKILLS

- NLP
- Deep Learning
- Transformers
- ML
- Python
- Git
- Docker
- Gradio
- FastAPI
- Streamlit
- Lms
- RAG
- Chromadb

Certifications

- PG Certification in Artificial Intelligence and Machine Learning, IIIT-Hyderabad [2023-2024]
