

THANUSH R

+91 9738490329 | thanushr405@gmail.com | <https://www.linkedin.com/in/thanush-r/>

SKILLS

BACKEND DEVELOPMENT | C# • DOTNET (.NET) • ASP.NET

• Web API • .NET Framework • Microsoft SQL Server

• .NET Micro services Architecture

DATABASES | SQL • MySQL • DB2

DEPLOYMENT | Git • GitHub • Bitbucket • TFS

MISCELLANEOUS | Visual Studio • Swagger • MuleSoft,

Postman • SonarQube and Code Coverage • Agile/SCRUM

FRONTEND DEVELOPMENT | Angular • HTML • CSS • JS

EXPERIENCE

LTIMINDTREE

Software Engineer | Nov 2022 – Present, Bengaluru

API Re-platforming project –APJ (ASIA PACIFIC & JAPAN):

- Analysed Mule code flow and understood the requirements to create user design stories, using Mule as the source of truth.
- Developed REST service APIs based on the designed user stories and wrote unit test cases to ensure functionality.
- Followed coding standards rigorously and used SonarQube to inspect code quality and identify security vulnerabilities.
- Utilized a code coverage tool to measure test coverage and ensure comprehensive automated testing.
- Troubleshot and diagnosed issues through code reviews and testing, deploying APIs across various environments after successful validation and adherence to SDLC practices.

Migration from TFS to GitHub:

- Adapted to analysing and understanding legacy code in TFS using C# and Visual Basic to facilitate migration.
- Accomplished the migration of legacy applications with history to GitHub, demonstrating effective time management and project execution.
- Built the solution, checked for references, and ensured operational functionality, showcasing adaptability in handling technical challenges.
- Communicated with clients to understand their requirements for new features or resolve issues, while providing support for various insurance and finance applications.
- Pushed the code to the GitHub repository and performed security checks, ensuring code quality and security through effective time management.

MINDTREE

Engineer | Dec 2020 – Oct 2022, Bengaluru

Reporting project / Compliance Tracking:

- Create reports as per the design requirements in SQL.
- Created reports based on design requirements using SQL.
- Built these reports with Stored Procedures, incorporating SQL functions and temporary tables.
- Developed and supported a Compliance Tracking application for banking clients, ensuring accurate tracking and reporting.

EDUCATION

GLOBAL ACADEMY OF TECHNOLOGY (GAT)

B.E., Computer Science & Engineering

Aug 2020 | GPA 8.23 | First Class with Distinction

NARAYANA PU COLLEGE

12th, PCMCs (Computer Science)

Mar 2016 | Percentage 93.33% | Distinction Class

HONORS & AWARDS

Shooting Star Award (2024)

I've been honoured that I have been recognized as Shooting Star from Insurance (INS) for Q1 FY25 edition of iWin Star Awards. Received this for my outstanding achievement and exemplary contributions

Spot On Awards (2022 - 2023)

I've been honoured with two SPOT ON awards in 2022-2023 for 'Successful Implementation of an Application' and 'Displaying Exemplary Team Spirit.' Demonstrated leadership by optimizing team success through leading code reviews and contributing constructive feedback to new joiners.

Community Volunteer (2022)

This certificate was received from GOONJ, an NGO, for taking the initiative in packing supplies for rural students and providing clothing for disaster-affected individuals as part of the Disaster and Humanitarian Relief program.

Certificate of Presentation (2020)

This certificate was received for presenting the innovative research paper titled 'WHEELCHAIR CONTROL AND HOME AUTOMATION USING HAND GESTURES' at AICDMB-Mysore-2020.

COURSEWORK

Object-Oriented Programming Concepts | Coursera

Structured Query Language (SQL) | Coursera

Version Control with GIT | Coursera

ASP.NET Core | Pluralsight

Angular | Pluralsight
