EDUCATION

- Dayalbagh Educational Institute** Agra, India
Bachelor of Technology - Computer Science; GPA: 7.54 *July 2019- June 2023*

SKILLS SUMMARY

- Languages:** C++, Typescript, Javascript, and Python
- Backend Development:** Socket.io, NodeJS, ExpressJS, LoopBack 4, MySQL, and MongoDB
- FrontEnd Development:** HTML, CSS, ReactJS, NextJS, React Native, and Expo
- Others:** NumPy, Pandas, Matplotlib, OpenCV, Linux, Windows, AWS, and GCP

EXPERIENCE

- Fyllo** Bengaluru, Karnataka
Software Engineer *June 2023 - Present*
 - Led the development of the Message Hub, a centralized messaging system, ensuring seamless communication across various applications.
 - Spearheaded the creation of a responsive website using NextJS, optimizing performance across diverse devices.
 - Troubleshoot, debugged, and upgraded software suites for applications, ensuring continuous improvement.
 - Optimized backend APIs using LoopBack 4, resolving bugs and enhancing overall system performance.
 - Developed a feature-rich inventory dashboard in ReactJS to track devices, including order creation and shipment tracking.
- Fyllo** Bengaluru, Karnataka
Software Engineer Intern *April 2022 - May 2023*
 - Transformed and modernized a React Native Expo-based mobile app, improving user experience and interface design.
 - Built a dynamic dashboard from scratch using ReactJS, integrating Google Maps API and charting libraries for interactive data visualization.
 - Implemented a powerful filtering mechanism for quick search and display of farm plots on the dashboard.
 - Created a dynamic form generator using Formik and Yup, enabling flexible and validation-driven form handling.
 - Implemented security measures and data protection settings to safeguard user information in the app and website.
 - Implemented an intuitive onboarding flow to streamline user registration and improve user engagement.
- Frshr Technologies** Bengaluru, Karnataka
Node Developer Intern *Jan 2022 - Sep 2022*
 - Developed back-end for a VMax health app, similar to HealthifyMe, including creating REST APIs for client-server communication.
 - Developed and maintained all server-side network components.
 - User authentication and authorization between multiple systems, servers, and environments.
 - Worked on the NiftyAlgo project, utilizing Socket.Io for real-time data communication, enabling persistent connections and real-time updates.
- Tankar Computer** Surendranagar, Gujarat
Node Developer Intern *Nov 2021 - Dec 2021*
 - Created APIs using NodeJS and Express, tested them using SwaggerHub.
 - Developed APIs documentation with the help of SwaggerHub.
- Genisup India Private Limited** Bengaluru, Karnataka
Web Developer Intern *July 2021 - August 2021*
 - Developed a Note-Taking Web Application (an Evernote Clone) in collaboration with 4 other interns using ReactJS, React Quill, HTML, CSS, and Firebase.
 - Created user authentication functionality in the app.

PROJECTS

- **Campus Connect (Expo App)**: Developed a mobile application for campus users, providing real-time weather, news, events, and note-taking. Integrated push notifications for timely updates. Tech: JavaScript, NodeJS, ExpressJS, Expo, and MongoDB (Aug '22).
- **Daily Journal (Web Development)**: Blog website, Added cookies to store sessions, Built APIs for composing, updating, and deleting a particular blog. Tech: Javascript, NodeJS, ExpressJS, and EJS (May '21)
- **Personal Portfolio (Web Development)**: Built my personal website so that anyone can see my work and knows me better. Tech: Javascript, NodeJS, ExpressJS, and EJS.(Jan '21)
- **Automate Selfie on Smile (Computer Vision, Image Processing, Machine Learning)**: An intelligent Computer Vision solution to auto-capture Selfie by detecting a smile, Trained a Cascade function with a lot of positive and negative images which is then used to detect objects in other images. Tech: Python, OpenCV (Sept '20)

HONORS AND ACHIEVEMENTS

- Solved 400+ problems on Codeforces.
- 5 Star(Gold level) rating in Python on HackerRank.
- 4 Star rating on Codechef.
- Snackdown 2021 — Qualified for 1A round of Snackdown 2021.
- Participates in various coding contests held on platforms like Codeforces, CodeChef, etc.
- Build O' Innovate'20 Participant — Won the 1st round for the case study challenge conducted by the Association of Civil Engineers(ACE), IIT Patna in collaboration with District Administration, Bhojpur.
- Solarthon'19 Participant— Participated in a workshop cum hackathon held on campus.
- Prabandhan'20 — Participated in competitions like Karobaar, Sanchaalan, Vittraj held under prabandhan'20 conducted by IIT Kanpur.
- Training and Placement Cell — Coordinator in Training and Placement Cell of Faculty of Engineering, Dayalbagh Educational Institute.
- Attended 7 days' National Service Scheme (NSS) camp.
