

Aarthi U S

Gobichettipalayam | saisubaarthius@gmail.com | 9486058251 | <https://www.linkedin.com/in/aarthi-u-s/>

Summary

C# Developer with over 2 years of experience in developing backend solutions using .NET technologies. Skilled in optimizing application performance and delivering high-quality software through collaboration in Agile teams

Skills

Languages: C#, MySQL, HTML, LabVIEW

Frameworks: .NET Framework, ASP.NET Web API

Testing Tools: XUnit Testing, TestStand

Cloud Services: AWS (EC2, S3, CloudWatch)

Developer Tools: GIT, Visual Studio, MongoDB, Source Tree

Core Competencies

Team Collaboration, Analytical Problem-Solving, Clear Communication, Time Management, Adaptability, Attention to Detail, Continuous Learning

Experience

Soliton Technologies

Jun 2022 – Oct 2024

- Architected **backend solutions** using C# and ASP.NET Web API, implemented clean, scalable designs based on OOP principles and best practices. Achieved a 30% reduction in response time and a 15% decrease in system errors, enhancing user satisfaction, which contributed to a 20% increase in user engagement metrics.
- Leveraged **AWS services** (EC2, S3, CloudWatch) to enhance application scalability and performance; utilized GIT and Bitbucket for version control, ensuring seamless collaboration across distributed teams and enhancing deployment efficiency.
- Maintained **coding standards** and performed code reviews, leading to a 30% reduction in bugs in production and a 25% increase in code maintainability, while promoting best practices within the development team to foster a culture of quality.
- Collaborated in **Agile and Scrum** teams to achieve a 20% reduction in project delivery time and a 15% decrease in post-deployment defects, ensuring that all project deliverables consistently met quality standards and deadlines through effective sprint planning and retrospectives.
- Created and maintained comprehensive test cases using **XUnit**, ensuring code reliability while reducing defects by 30% through rigorous automated testing practices that enhanced overall software quality.
- Authored comprehensive **technical documentation** that aligned solutions with business goals and technical requirements, successfully improving team onboarding time by 15% and facilitating a 25% reduction in project development time through clear documentation and architecture standards.
- Focused on identifying and **resolving backend issues** with a 95% resolution rate; implemented optimizations that improved system performance by 30%, resulting in faster response times, enhanced user experience, and increased customer satisfaction ratings.
- Fostered **cross-functional collaboration** with frontend developers, product managers, and QA teams to align project goals, resulting in a 40% improvement in code quality and a 25% reduction in time to market.

Education

Sri Krishna College Of Technology, Bachelor of Engineering in
Electronics and Communication Engineering

Jun 2018 – May 2022

- CGPA: 9.22 | Department Topper
- Winner of Smart India Hackathon-2020
