Objective

As a trained data enthusiast with a strong background in data analysis, I am skilled in turning complex datasets into actionable insights. With my expertise in data science and Data analysis, I am confident in my ability to deliver results and provide valuable contributions to any data analysis team.

Experience

AlmaBetter	Feb 2024-Present Bengaluru, India
🔗 Data Analyst Trainee	
- Proven proficiency in SQL, Power BI, and Python through hands-on experience in various Data Analysis case studies. - Acquired skills in Exploratory Data Analysis (EDA), statistical analysis, business intelligence, and Data analysis techniques. - Demonstrated expertise in Data visualization to communicate insights effectively. Additionally, developed a foundational understanding of teamwork dynamics.	

Projects

Dynamic Sales Analysis in Supermarket using MS EXCEL	Aug 2024
🔗 DashBoard Image	
- Analysed Dynamic sales performance in SuperMarket Store using MS Excel. - Addressed data issues such as missing values, outliers, and duplicates through power query. - Utilized various charts (Pie chart, bar graphs, clustered columns,Maps) for data visualization. - Created interactive dashboards, providing key insights and recommendations for SuperMarket improvements. - skills used : DataCleaning , power query, Dashboarding, Team work	

Unveiling Insights in the Global Terrorism Through Data Analysis using PowerBI	(Jul 2024 - Aug 2024)
🔗 DashBoard Image	
- Analyzed the Global Terrorism dataset using Power BI and successfully created an interactive dashboard that provided insights into the total number of lives lost, the number of people wounded, the value of property damage, and the countries most affected. - Successfully handled data preprocessing tasks, including imputing missing values, removing duplicates and null values, and creating data visualizations using line charts, column charts, and pie charts and Map to extract actionable insights. - Utilized DAX to create different measures and Calculated columns which were necessary for the project. - Designed an interactive dashboard to analyze global terrorism act accross various aspects such as region, country and sector, as well as the number of attacks by month, effectively uncovering insights from the dataset. - Skills Used : Data Visualization, Power Query, PowerBI, DAX, Dashboard, Reporting.	

Project Dissection on Swiggy	(Apr 2024 - May 2024)
🔗 Github link	
- Conducted an in-depth case study on Swiggy, analyzing its core functionalities and real-world challenges. - Provided a comprehensive report including schema design and ER diagrams. - Developed skills in documentation, reporting, and database knowledge. - Delivered actionable recommendations resulting in an estimate increase in growth and revenue. - Skills used : PostgreSQL database, Reporting, Documentation, ER Diagram, Databases.	

Certifications

Full stack Data Science Program	(Feb2024 - Sept2024)
AlmaBetter	
🔗 Certificate	
Built Projects like Twitter Analysis Dashboard, Customer segmentation using unsupervised machine learning, EDA and Power BI Dashboard.	

Relevant Coursework

Data Visualization Tools	Sept 2024
🔗 Certificate	
Completed Projects by Using Visualization Tools
