EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY

B.TECH IN ELECTRICAL AND ELECTRONICS ENGINEERING
JULY 2024 | chumu, Nagaland

TIRUMALA JUNIOR COLLEGE

MPC
CGPA: 8.3

MADHURI VIDHYALAYA HIGH SCHOOL

CGPA: 8.6

COURSEWORK

UNDERGRADUATE

Industrial Internet of Things
Sustainable Energy Resources
Electrical Machines
Embedded Systems
VLSI
Introduction to computing programming
Machine Learning
Power Systems

SKILLS

PROGRAMMING

Python
Matlab
Arduino
Simulink
Machine Learning
Ms Excel
Power Bi
SQL
Cloud Computing
Data Analysis
Business Analysis
PowerPoint
Scrum
Agile
Documentation

SOFT SKILLS

Language proficiency • Team Player •
Pressure handling • Hard working •
communication skills • Business Acumen •
Leadership • Presentation •

SUMMARY

Recent graduate with a degree in Electrical and Electronics Engineering from NIT Nagaland, equipped with a solid foundation in data analysis, statistical methods, and business intelligence tools. Proficient in analyzing complex datasets, identifying trends, and providing actionable insights to support decision-making processes. Looking to leverage academic knowledge and internship experience in a challenging role, where I can make a meaningful impact on business outcomes.

EXPERIENCE

SOLARWORK

ASSISTED IN THE ANALYSIS OF RENEWABLE ENERGY SYSTEMS, INCLUDING SOLAR AND WIND POWER PROJECTS, AND ENSURING AND SUSTAINABILITY. CONDUCTED PERFORMANCE DATA COLLECTION AND ANALYSIS FOR ONGOING RENEWABLE ENERGY PROJECTS, IDENTIFYING AND RESOLVING TECHNICAL ISSUES TO ENHANCE SYSTEM PERFORMANCE. PREPARED DETAILED TECHNICAL DOCUMENTATION FOR PROJECT DESIGNS AND IMPLEMENTATIONS, ENSURING ALL PROJECT RECORDS WERE ACCURATELY MAINTAINED AND COMMUNICATED TO TEAM MEMBERS. WORKED CLOSELY WITH MULTIDISCIPLINARY TEAMS, PROJECT MANAGERS, AND APPLYING STRONG COMMUNICATION SKILLS TO FACILITATE SMOOTH PROJECT EXECUTION.

PROJECTS

DEMAND FORECASTING USING MACHINE LEARNING

Aug'23 - May'24 | nit Nagaland

Developed a machine learning model to forecast demand for fast moving consumer goods. Utilized various machine learning algorithms to predict future demand with high accuracy, aiding in better inventory by collecting and preprocessing historical demand data from [Kaggle]. Conducted data cleaning and feature engineering to enhance model performance. Applied various machine learning algorithms.

FORAGE TCS DATA VISUALISATION

Developed a comprehensive data visualization dashboard for Tata Consultancy Services (TCS) to analyze and present key metrics and insights from various datasets. The project aimed to enhance decision-making processes and provide actionable insights through intuitive visual representations.

HANDS ON EXPERIENCE

AWS Acquired basic hands-on experience with AWS, utilizing cloud-based services for data storage and basic processing tasks. Developed foundational knowledge in AWS, familiarizing with essential cloud tools to support data workflows.

POWER BI Utilized Power BI to design and develop interactive dashboards and reports, enabling real-time monitoring and visualization of key performance indicators (KPIs) for ongoing projects. Applied advanced data analysis techniques using Excel and Python to identify trends, extract insights, and support strategic decision-making processes.
