

VISHNU C NAIR

SUMMARY

Responsible RPA UiPath Developer, passionate about delivering outstanding quality and service. Offering 3.5+ years of experience in industry with history of recognition for performance. Works with clients to determine requirements and have proven track record of successful project management and producing quality outcomes through leadership and team motivation.

EXPERIENCE

January 2021 - Current

RPA Developer Tata Consultancy Services | Trivandrum

- Responsible for leading end-to-end RPA automation(document, design, build, test, deploy and maintain) using UiPath best practice principles for a health care client.
- Achieved significant operational efficiency by designing and developing five bots for processes with different FTEs (ranging from 1.0 to 3.0), resulting in an impressive reduction of approximately 80% to 100% in human effort.
- Actively participated in the support and monitoring of existing operations, facilitating implementation of change requirements through a systematic change control process.
- Executed rigorous monthly performance audits assessing bot efficiency post deployment leading up towards actionable insights driving enhancements that accounted for an increase in task throughput capacity exceeding expectations.
- Collaborated with subject matter experts to gather comprehensive process information and ensure complete understanding of requests.

EDUCATION

2016-2020

Electronics and Communication engineering

Mar Baselios College of Engineering and Technology, Trivandrum, KL

PROFESSIONAL ACHIEVEMENTS

- Awarded the title of "**Contextual Master**" by TCS for building up deep knowledge about customers business and technology landscape on the job and use the contextual knowledge to create value.
- Earned the "**On the Spot Award**" for excellence in project delivery by streamlining communication processes.
- Garnered recognition from clients on different occasions due to commitment to delivering high quality automated solutions; feedback highlighted significant improvements in workflow efficiency directly resulting from implemented automation strategies.
