

CAREER OBJECTIVE

Enthusiastic and detail-oriented Data Science professional skilled in machine learning, predictive analytics, and statistical methods. Seeking to contribute to impactful business solutions by leveraging advanced data modelling, programming expertise, and a passion for deriving actionable insights.

PROFILE SUMMARY

- Developed sophisticated machine learning models for regression, classification, and clustering tasks, ensuring optimal performance using frameworks like TensorFlow, PyTorch, and scikit-learn.
- Proficient in Python, R, SQL, and advanced data visualization tools like Power BI and Tableau.
- Strong knowledge of statistical analysis techniques, including hypothesis testing, regression analysis, and feature engineering.
- Hands-on experience with end-to-end model development, including data preprocessing, model tuning, and deployment.
- Adept at translating complex data insights into clear, actionable recommendations for stakeholders.
- Skilled in collaboration across cross-functional teams, delivering analytics-driven solutions aligned with business goals.

TECHNICAL SKILLS

- Programming Languages: Python, R, SQL
- Libraries/Frameworks: TensorFlow, PyTorch, scikit-learn, Keras
- Data Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Machine Learning: Regression, Classification, Clustering, Dimensionality Reduction, Ensemble Methods
- Deep Learning: CNNs, RNNs, Transformers
- Other Tools: Flask, Hugging Face, OpenAI, AWS

WORK EXPERIENCE

Engineer CLS-Ops

Bharti Airtel Ltd. | Sep 2022 – Jul 2023

- Monitored and maintained the submarine cable network, achieving a 10% reduction in downtime.
- Collaborated with technical teams to address network issues and conducted quality checks for seamless operations.
- Implemented emergency protocols, ensuring swift recovery during critical situations.

INTERNSHIPS

Data Analyst Intern

Maxgen Technologies Pvt. Ltd. | Jan 2024 – Jun 2024

- Managed diverse datasets and created interactive dashboards using Power BI, enhancing data accessibility and decision-making.
- Applied machine learning algorithms to real-world datasets, delivering insights through models like Random Forest and Logistic Regression.
- Gained proficiency in Python for data preprocessing, statistical analysis, and feature engineering.

PROJECTS

1. Music Audio Classification

- Categorized audio signals into genres using features extracted with Librosa and trained models using CNNs and Sequential models.
- Validated model accuracy using cross-validation and performance metrics like accuracy and loss.

2. Supply Chain Optimization

- Leveraged regression algorithms like Random Forest and XGBoost for predictive analytics in supply chain datasets.
- Constructed pipelines in scikit-learn to streamline preprocessing, feature scaling, and model training.

3. Credit Score Classification

- Addressed class imbalance with SMOTE and developed classification models using Gradient Boosting and XGBoost.
- Evaluated models with metrics such as F1-Score and AUC-ROC curve for robust credit risk prediction.

4. Chat with CSV Using LLaMa (AWS Deployment)

- Developed and deployed an NLP application on AWS for querying CSV files via natural language.
 - Optimized performance by tuning LLaMa models and AWS services, ensuring scalability and efficiency.
-

EDUCATION

Bachelor of Engineering

MGM's College of Engineering and Technology, Navi Mumbai | 2021

CERTIFICATIONS

- 100 Days of Code: The Complete Python Pro Bootcamp (Udemy)
 - Web Scraping Financial News Using Python 3 (Udemy)
-

PERSONAL SKILLS

- Strong problem-solving and analytical abilities
 - Effective communication and storytelling with data
 - Collaborative team player with excellent time management
-

PERSONAL INFORMATION

- Date of Birth: 26/11/1997
- Languages: English, Marathi, Hindi
- Hobbies: Biking, Hiking, Running
