PROFILE SUMMARY

Experienced Dot Net Developer with 1.9 years of hands-on experience in .NET MVC and Entity Framework. Proficient in seamlessly integrating frontend and backend technologies, ensuring the delivery of efficient, scalable, and maintainable solutions. Skilled in building dynamic and responsive user interfaces using React.js, while leveraging AWS services to deploy and maintain cloud-based applications. Dedicated to optimizing performance and enhancing user experiences through well-structured code and thoughtful architecture.

Skills

- | | | |
|---|----------------------|-------------------------|
| • HTML, CSS, JAVASCRIPT | • CORE JAVA | • C# |
| • ASP.NET MVC (Entity Framework) | • My SQL | • API integration |
| • Familiar with Azure DevOps (CI-CD Pipeline) | • Selenium WebDriver | • jQuery,Ajax,Bootstrap |
| • AWS | • Jenkins | • React |

Environment

- | | | |
|-----------------|--------------------|--------------|
| • Visual Studio | • BrowserStack | • Agile |
| • Windows | • Postman | • Auth0 |
| • GitLab | • GitHub | • Jira |
| • IIS | • Entity Framework | • SQL Server |

Professional Experience

Outbooks-Developer - Full Stack

06/24-09/24| Pune, India

Roles & Responsibilities

- Developed responsive and dynamic user interfaces using React.js to enhance user experience.
- Learned AWS services to integrate scalable cloud solutions into applications.
- Actively participate in code reviews, providing constructive feedback to peers, ensuring adherence to coding standards, and promoting best practices.
- Collaborate with design and product teams to implement UI changes, improving functionality and visual appeal based on user feedback and requirements.
- Developed and implemented Business Logic using Visual Studio/.NET MVC Framework.
- Identify and resolve bugs and performance issues across the application stack, ensuring high-quality deliverables.
- Write and maintain automation scripts for testing and deployment processes, enhancing the efficiency and reliability of the software delivery pipeline.

Project

Certifications

- AWS Cloud Technical Essentials
- JavaScript Algorithm and Data structures

Education

RCOEM- M.C.A	2020-2022 Nagpur, India
Kamla Nehu Mahavidyalaya- B.C.A	2017-2020 Nagpur, India
Prerna Junior College – Class XII	2017 Nagpur, India
New Era English – Class X	2015 Nagpur, India

Academic Projects

- Built a Tic-Tac-Toe gaming application using XML and Java in Android.
- Developed an informative website (iCoder) for learning programming languages using Bootstrap.
- Created Snake Mania game using JavaScript.
- Implemented CRUD operations using ASP.NET MVC with Entity Framework.
- Designed a programming language learning website using ASP.NET MVC.
- Developed an E-Commerce website on ASP.NET.
- Built a bakery website using the MERN stack (MongoDB, Express, React, Node.js)
