Education

Chitkara University

Bachelor of Engineering in Computer Science: CGPA: 9.45

07/2021 - Present

Rajpura, Punjab

Modern Vidya Niketan

Higher Secondary in Non-Medical: Percentage: 88.6%

07/2021

Faridabad, Haryana

Amity International School

Matriculation: Percentage: 93%

05/2019

Gurugram, Haryana

Technical Skills

Programming Languages: C, C++, JAVA, Python, JavaScript, SQL

Technologies/Frameworks: ReactJS, ExpressJS, NodeJS, GIT, MySQL, MongoDB, Docker

Coursework: Data Structures & Algorithms, OOPs, Operating System, DBMS, Computer Networks

Soft Skills: Problem-Solving, Critical-Thinking, Reliability, Effective Communication, Team Collaboration

Projects

QuickBites | *Node.js, Express.js, MongoDB, React.js, Redux, JavaScript, Tailwind CSS* 08/2024 - 09/2024

- Built a responsive web application, utilizing **dynamic API data fetching**, **search**, **filtering**, and **lazy loading** to enhance user experience.
- Implemented **reusable React components**, such as a **shimmer loading effect**, to optimize performance and ensure seamless data rendering during API calls.
- Utilized **React hooks** to manage dynamic updates, ensuring seamless state management and delivering real-time functionality for an interactive user experience.
- GitHub Link: [Quick-Bites](#)

Code-Stream | *Node.js, Express.js, React.js, WebSockets, Monaco Editor, Toaster* 03/2024 - 04/2024

- Developed a **Real-Time Collaborative Code Editor** that enables synchronized coding across multiple users in real-time, using a **room-based system**.
- Designed an interface for users to **join** or **create** rooms with unique IDs, ensuring seamless real-time updates for all participants.
- Leveraged **WebSockets** to ensure instant code synchronization and user interactions.
- GitHub Link: [Code-Stream](#)

V-Blogs | *Node.js, Express.js, MongoDB, JavaScript, EJS, HTML/CSS* 11/2023 - 12/2023

- Created a dynamic **Blog Website**, allowing only authenticated admin to **create** and **delete** blog posts.
- Integrated dynamic pages, using **EJS templating** to deliver a consistent and engaging user experience.
- Incorporated **TinyMCE Editor** for rich text formatting and media embedding, enhancing the blog content creation process.
- GitHub Link: [V-Blogs](#)

Achievements

- Achieved **Global Rank 272** out of **23,264** participants in **CodeChef Starters 135**.
- Tackled **1,000+** problems across **LeetCode**, **Codeforces**, and **GFG**. ([Coding Portfolio](#))
- Secured a distinguished top **5 ranking** in the Explore AI 1.0 **Hackathon**, hosted by **Yamaha Motor Solutions**.
- Ranked **3rd** in **TechQuiz** organised by **GFG CUIET** showcasing technical knowledge and strategic thinking.
- Mentored students regarding fundamentals of **C/C++** at **DevLearn Community**.
- Completed all 10 levels of **BrainOBrain**.

Certificates

Data Structures & Algorithmic Toolbox by UC San Diego (Coursera)

04/2024

Acquired a strong grasp of Data Structures & Algorithms through this course.

Developing Front-End Apps with React by IBM (Coursera)

04/2024

Demonstrated proficiency in the foundation for web development through this course.
