SUMMARY

A highly inquisitive and meticulous software engineer with 3 years of hands-on experience in end-to-end application development from initial concept to deployment and a strong determination to succeed. I have delivered high-quality, scalable, and efficient solutions that streamline operations and drive business growth. Seeking to apply strong analytical and programming skills to solve challenging problems.

SKILLS

- **Programming Languages and Frameworks:** Java, Spring, Spring Boot, Quarkus, Apache Kafka, Hibernate
- **Databases:** MySQL, PostgreSQL, IBM DB2, Oracle
- **Tools and IDE:** IntelliJ, Eclipse, VS Code, Atom, Postman, Rancher, Jenkins, Azure, DBeaver, Splunk, Jira

EXPERIENCE

SOFTWARE ENGINEER, 01/2024 - Current

HCLTech, Pune, India

Client: The ODP Corporation (Office Depot, Veyer, Varis)

Project: Logistic Platform as a Service (LPaaS)

- Developed and deployed robust applications from concept to deployment, where Created event driven microservices, wrote unit, integration and performance tests and ensured that application SLAs are met by employing appropriate monitoring and alerting tools
- Proficient in developing scalable, maintainable REST APIs using Java, Spring Boot, and Quarkus, Kafka to enhance logistics and transportation workflows Also worked on researching, documenting and planning the migration of legacy systems to new modern architectures.
- Actively participated in fixing bugs as per client requirement and Provided production support, quickly diagnosing and resolving critical issues to ensure minimal downtime.

APPLICATION DEVELOPER, 01/2022 - 12/2023

Compucom, Pune, India

Client: The ODP Corporation (Office Depot, Veyer, Varis).

Project: Logistic Platform as a Service (LPaaS).

- Contributed to a smooth transition of ODP Corporation's services from AWS to Azure, improving performance and reducing cloud infrastructure costs.
- Developed, maintained, and improved project modules using Java and Spring Boot, Quarkus.
- Leveraged OTM knowledge to enhance routing and delivery within the supply chain. Also provided production support for resolving critical issues.

EDUCATION AND TRAINING

PVG's College of Engineering And Technology, Pune, 05/2021

B.Tech/B.E: Information Technology
