Professional Summary

Results-driven IT professional with expertise in Data Science, Machine Learning, Web Development, and Software Engineering. Proficient in Python, Java, SQL, and visualization tools such as Power BI and Tableau. Adept at data analysis, predictive modelling, and creating actionable insights, with strong problem-solving and teamwork skills. Passionate about leveraging technology to deliver innovative solutions in data analysis and Artificial Intelligence.

Key Skills

- **Programming:** Python, SQL, Java
 - **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Power BI
 - **Data Science:** Data Cleaning, Machine Learning (Supervised & Unsupervised), NLP
 - **Cloud:** AWS
 - **Tools:** Git, Excel, Google Sheets
 - **Soft Skills:** Analytical Thinking, Problem-solving, Communication, Leadership
-

Experience

Data Science Intern

Luminar Techno lab, Ernakulam (May 2024 – Dec 2024)

- Analyzed large datasets using Python to generate actionable business insights.
- Built predictive models with Scikit-learn, achieving 85% accuracy.
- Designed dashboards in Power BI to support decision-making.

Data Science Intern

Elawayte, Bengaluru (Jun 2024 – Jul 2024)

- Conducted data analysis using Python for actionable organizational insights.
-

Projects

- **Income Prediction:** Developed predictive models (SVM, Random Forest, Logistic Regression), optimized performance with grid search.
 - **Employee Data Analysis:** Analyzed and visualized employee data to improve organizational strategies.
 - **Stellar Classification:** Developed a Random Forest classifier to categorize Astronomical objects into their respective classes (Galaxies / Stars).
-

Education

BSc Applied Physics – Calicut University (2021–2024)

CGPA: 6.88/10
