Career Objective

Results-driven IT professional with hands-on experience in **Data Science, Machine Learning**. Skilled in Python, Java, SQL, and data visualization tools such as Power BI and Tableau. Adept at analyzing and solving complex problems, with a proven ability to deliver efficient solutions both independently and in team settings. Passionate about leveraging emerging technologies in **Data Analysis, Artificial Intelligence**, and **Software Development** to foster innovation.

Key Skills

- **Programming Languages:** Python, Java, C, SQL
 - **Data Science & Machine Learning:** Supervised & Unsupervised Learning, Exploratory Data Analysis, Natural Language Processing
 - **AI Tools & Libraries:** Scikit-learn, TensorFlow, Keras, Pandas, Numpy
 - **Data Visualization:** Power BI, Seaborn, Matplotlib
 - **Cloud Platforms:** Amazon Web Services (AWS)
 - **Database Management Systems:** MySQL, SQL Server
 - **Web Development:** HTML, ASP.NET
 - **Development Tools:** Jupyter Lab, Jupyter Notebook, Google Colab, PyCharm
 - **Office & Documentation Tools:** Microsoft Excel, Microsoft Word, Google Docs
 - **Project Management:** Team Collaboration, Stakeholder Management
 - **Soft Skills:** Analytical Thinking, Problem-solving, Communication, Leadership
-

Experience

Data Science Intern

Luminar Technolab, Ernakulam, Kerala - May 2024 – Present

- Currently undergoing training in Data Science with a primary focus on **Machine Learning** and **Deep Learning**.
- Completed 20+ projects related to **Machine Learning (ML)** and **Natural Language Processing (NLP)**.
- Engaged in **Power BI** projects and exploring advanced AI concepts like **Generative AI**.

- Key areas of focus: Python, Data Science, Machine Learning, Deep Learning, SQL, AWS, Power BI, NLP.

Data Science Intern

Elewayte, Bengaluru - June 2024 - July 2024

- Completed hands-on training with practical exposure to **Data Science** and **Machine Learning** techniques.
 - Gained certification with projects demonstrating data analysis, model building, and evaluation.
 - Key areas of focus: Python, Data Science, Machine Learning.
-

Certifications

- **Data Science Training and Internship**
 - **Certified Python Developer**
 - **Certified Java Developer**
 - **British Council Certification (CEFR B2)**
-

Projects

- **Income Prediction**
Developed and compared three predictive models—**Support Vector Machine (SVM)**, **Random Forest**, and **Logistic Regression**—to forecast individual income based on various factors. The models were evaluated using unseen data, optimized using randomized grid search.
- **Textual Data Analysis**
NLP Project focuses on **sentimental analysis**. Extracted textual data articles from URL and perform text analysis to compute sentimental variables mainly with the help of **re**, **os**, **nlTK**, **pandas**.
- **Stellar Classification**
Developed a **Random Forest classifier** to categorize astronomical objects (Galaxies vs Stars) .

Education

B.Sc. Applied Physics

Calicut University 2021 – 2024

- Physics as main and Computer science, Html, C-programming, Python, Statistics as complimentary.
CGPA: 6.88/10
