Address: Pune

Linkedin: <https://www.linkedin.com/in/vijaychavan2612>

- Experienced RPA Developer with over 3 years of specialization in UiPath.
- Expert in designing, developing, and deploying automated workflows to enhance business process efficiency.
- Proficient in process analysis and optimization, identifying opportunities for automation and implementing effective solutions.
- Skilled in creating and maintaining RPA documentation, including process and solution design documents.
- Strong collaboration skills with a track record of working effectively with cross-functional teams to deliver tailored automation solutions.
- Proven success in deploying RPA bots, achieving significant time and cost savings.
- Knowledgeable in UiPath components such as Studio, Orchestrator, and Robots.
- Experienced in integrating UiPath with various applications, databases, and web services for seamless automation.
- Adept at using programming languages such as VB.NET, C#, and Python within the UiPath environment.
- Experienced in version control systems like Git for managing codebase changes.
- Strong understanding of Agile methodologies and experience in working within Agile frameworks.
- Effective communicator with the ability to present complex automation concepts clearly to stakeholders.
- Proven problem-solving capabilities in troubleshooting and resolving issues during the development and post-deployment phases.
- Ability to manage multiple projects, ensuring timely delivery and adherence to quality standards.
- Committed to continuous learning and staying updated with the latest RPA trends and best practices.

EDUCATION

Bachelor of Engineering | PES College of Engineering, Aurangabad

Jun 2018

Information Technology

EXPERIENCE

RPA Developer | Xapotech Systems

Dec 2022 - Present

- Automated processes with UiPath, boosting efficiency by 30%.
- Designed and implemented workflows and business process models to optimize end-to-end processes.
- Integrated RPA bots with databases and third-party applications via RESTful APIs and SOAP.
- Collaborated with cross-functional teams to ensure seamless deployment and ongoing maintenance of RPA bots.
- Conducted unit and integration testing to identify and resolve issues before deployment.

Software Engineer | Nividous Software Solutions

Mar 2022 - Nov 2022

- Assisted in the development and implementation of RPA solutions using UiPath.
- Conducted business process analysis to identify opportunities for automation.
- Participated in the creation of detailed documentation for RPA projects.
- Supported the maintenance and troubleshooting of deployed bots.

TECHNICAL SKILLS

RPA Tools : UiPath Studio, UiPath Orchestrator, Automation Anywhere, Microsoft Power Automate | Automation Skills : Web Automation, Advanced UI Automation, Image Automation, OCR Automation, Email Automation, Excel Automation, PDF Automation | Advanced UiPath Features : State Machines, RE-Framework, AI Center, Advanced UI Automation, Document Understanding, Task Capture | Programming Languages : VB.NET (Visual Basic .NET), C#, Python, Java | Scripting Languages : PowerShell, Shell Scripting | Web Technologies : HTML, CSS, JavaScript | Database Management : SQL Server Management Studio, MySQL Workbench | API Integration : Postman (RESTful APIs), SOAP UI (SOAP APIs) | Cloud Platforms : AWS (Amazon Web Services), Azure (Microsoft Azure), Google Cloud Platform | Data Analytics : Microsoft Power BI | Machine Learning : TensorFlow | Version Control : Git (GitHub), SVN (Subversion) | Project Management : Jira, Confluence | MS Office Suite : Microsoft Teams, Outlook, Word, PowerPoint, Excel

PROJECTS

AUTOMATED INVOICE PROCESSING SYSTEM

Developed an automated invoice processing system that extracts data, integrates with accounting software, and automates approvals and payments. Streamlined accounts payable, reduced errors, and improved payment timeliness. Enhanced vendor relationships and integrated with ERP systems to optimize cash flow and accelerate financial processes.

Roles & Responsibilities :

- Developed an automated invoice processing system using UiPath.
- Used Document Understanding to extract data from invoices.
- Automated email retrieval to collect invoices from the inbox.
- Implemented data validation to ensure accuracy of extracted information.
- Reduced invoice processing time by 70%, increasing team efficiency.
- Created reports to track invoice processing metrics and insights.

ONBOARDNEX

Streamlined HR onboarding for a multinational corporation using UiPath RPA solution. Reduced manual effort, improved accuracy, and expedited onboarding.

Roles & Responsibilities :

- Developed an Employee Onboarding Automation System utilizing UiPath.
- Automated retrieval and management of email attachments.
- Employed OCR technology for accurate data extraction from forms.
- Implemented dynamic folder structures for organized documentation.
- Facilitated seamless data entry into HR software applications.
- Automated distribution of training materials to new hires.
- Enhanced process reliability through effective error handling.
- Utilized logging for comprehensive workflow monitoring.
- Achieved a 40% reduction in onboarding time.

INDORAMA

Automated file downloads, data handling, and email processes using UiPath. Implemented error handling, optimized workflows, and collaborated on troubleshooting. Conducted testing and created documentation for workflows.

Roles & Responsibilities :

- Automated data extraction from John Deere's website using UiPath, enhancing efficiency by 80%.
- Utilized queues for organized status tracking and error management.
- Compiled extracted data in a DataTable for accurate reporting.
- Generated hourly PDF records of tractor webpages, organized by date.
- Employed web scraping to minimize manual data entry.
- Scheduled automation to ensure timely data availability.

CERTIFICATES

UiPath Academy Automation Developer Professional Training at UiPath
Certified Essentials Automation Professional at Automation Anywhere
RPA Essentials & Advanced at Nividous
