Address: Chickpet Tumkur

Education

Master of Computer Application
Siddaganga Institute Of technology
2020 - 2022 8.35(CGPA)

Bachelor Computer Application
Vidya Vahini Frist Grade College
2017 - 2020 8.17 (CGPA)

Skills

DevOps Tools and Technologies:

Containerization: Docker
Orchestration: Kubernetes
Cloud Platform Azure

Monitoring and Troubleshooting:

Prometheus Grafana
Kibana ELK
Kafka
Linux

Version Control: Git
Helm

Debugging
Infrastructure as Code (IAC)
Software Development Lifecycle
Effective Communication
Effective Collaboration and Teamwork
Troubleshooting
Agile Development
CI/CD continuous integration

Operating System: Linux/Windows

Databases:

Cassandra
DBMS
Scripting and Coding Languages
C++ Java

VIJAY RAGHUL L P

Dedicated and results-driven DevOps professional with 1 year of experience, seeking a position in a dynamic organization to leverage my expertise in continuous integration and deployment, cloud computing, and automation to drive operational excellence and efficiency.

Professional Summary:

- Demonstrated ability to streamline development, testing, and deployment pipelines.
- Experienced in Azure Cloud services and DevOps tools customization.
- Strong problem-solving skills with a focus on root cause analysis.

Experience:

Trainee Development Engineer | MediaKind, Bangalore Aug 2022- Aug 2023

- Played a pivotal role in addressing OPA (Open Policy Agent) violations and optimizing cost management through Kubecost, displaying a commitment to resource
- Leveraged ELK stack (Elasticsearch, Logstash, Kibana), Prometheus and Grafana for robust monitoring and logging, ensuring efficient system performance and issue detection.
- Successfully contributed to Spot and Cassandra Migration projects, show casing adaptability and an ability to learn and apply new technologies.
- Leveraged DevOps tools for automated testing and deployment, improving efficiency.
- Provided timely customer support and resolved tickets related to DevOps tools.
- Skillfully managed and resolved HMR Backup failures, showcasing problem-solvingabilities and a proactive approach to system stability.
- Effectively managed databases, including MySQL and Cassandra demonstrating a strong foundation in database management.
- Employed Docker and Kubernetes for containerization, reflecting an understanding of modern software packaging and deployment practices.
- Participated in AKS (Azure Kubernetes Service) upgrades, highlighting a dedication to staying current with cloud-native technologies.
- I have successfully implemented a Kafka exporter using a Helm chart and subsequently integrated it with Prometheus, leveraging Grafana for monitoring and visualization.

Frontend Developer | Intern| Terralogic, Bangalore Apr 2022- July 2023

- Actively contributed to six distinct projects, demonstrating expertise in frontend technologies.
- Led the design and development of a React project, showcasing creativity and problem-solving abilities.
- Developed user-friendly interfaces for four web applications, ensuring seamless user experiences.
- Utilized HTML, CSS, JavaScript, Bootstrap, and React to create visually appealing and responsive application developer web designs.
- Collaborated closely with cross-functional teams, fostering effective communication and teamwork.
- Resolved technical challenges, optimized code performance, and ensured cross-browser compatibility.
- Gained hands-on experience in a professional setting, enhancing problem-solving and teamwork skills. Strong Problem-Solving and Critical Thinking
