

SKILLS

- SQL, Python, Numpy, Pandas, Matplotlib, Machine Learning, Scipy, Seaborn, MLOPS, Tensorflow, Keras, Pytorch, Microsoft Excel, Tableau, Stats & Probability, Product Analytics, Data Analysis, Power BI, AWS, Prompt Engineering, Generative AI, LLM, Computer Vision, Neural Network, NLP, Data Analysis

EXPERIENCE

Prompt Engineer	Dec 2024 - Present
Outlier AI (Part-Time)	Remote
- Designed and optimized prompts for GPT-based AI models, achieving a 27% increase in response accuracy and relevance tailored to user needs and business goals. - Conducted iterative A/B testing to evaluate prompt performance, resulting in a 23% improvement in output quality across diverse use cases. - Developed domain-specific prompts for finance, healthcare, and education sectors, enhancing user satisfaction by 34% through targeted solutions to unique challenges. - Collaborated with cross-functional teams, aligning prompt designs with system workflows and user experience goals, leading to an 18% increase in project efficiency. - Created a comprehensive repository of effective prompts, reducing deployment time by 50% and maintaining consistency across projects. - Provided guidelines and training to standardize prompt engineering best practices, fostering knowledge sharing and collaboration among 100+ team members. - Monitored AI outputs and analyzed performance trends, identifying opportunities for innovation that improved model efficiency by 18%. - Explored and implemented new strategies for prompt design, enhancing AI capabilities and adaptability to complex requirements by 34%. - Partnered with stakeholders to understand client needs, translating them into actionable prompt designs that effectively addressed specific pain points, resulting in a 35% increase in client satisfaction. - Ensured compliance with ethical standards and business objectives, crafting prompts that aligned with organizational values while optimizing AI interactions, contributing to a 20% reduction in compliance-related issues.	
Business Associate	Apr 2022 - Sep 2023
Unacademy	Bengalore
- Conducted in-depth market research to identify new business opportunities and emerging trends, resulting in a 15% increase in market share. - Built and maintained strong relationships with learners for IIT & NEET entrance exams, expanding the client base by 25%. - Ensured compliance with industry regulations and maintained integrity, collaborating with cross-functional teams to streamline processes.	
Relationship Manager	Mar 2017 - Mar 2022
Yes Bank Ltd	New Delhi
- Successfully managed diverse client portfolios, ensuring tailored financial solutions aligned with their investment objectives and risk tolerance. - Increased client portfolios by 15% through strategic financial planning and proactive investment strategies. - Achieved measurable growth in portfolio size and profitability, exceeding set targets and enhancing client satisfaction.	
Corporate Manager	Jan 2015 - Feb 2017
HDFC Life Insurance	New Delhi
- Established and cultivated strategic partnerships with corporate clients and banks, driving a 15% sales increase for HDFC Life Insurance in the first quarter. - Implemented targeted sales strategies that elevated insurance product penetration, exceeding revenue goals by 20%. - Attained 95% compliance with regulatory standards and internal policies in sales activities, significantly enhancing organizational integrity.	

PROJECTS

- Market Analysis For E-Commerce Target**
 - Identified data types, time range, city/state counts, preferred ordering times, delivery time and payment analysis.
 - Implemented SQL skills to analyze Target's Brazilian e-commerce operations, revealing a 137% order cost increased.
 - Formulated cost optimization, personalized marketing, and efficient delivery strategies using Product Analytics & Statistical Modeling.
- Visual Analysis For Netflix**
 - Utilized Python, Pandas, and Matplotlib to analyze Netflix data, identifying trends, shifts, and seasonality for strategic insights.
 - Developed a Tableau Dashboard aiding business decisions on optimal content release times, potentially increasing profits by 80%.
 - Achieved a project success rate of 95% by consistently meeting deadlines and exceeding deliverable expectations.

- Scaler Academy Placements Analysis Through Clustering**
 - Implemented Mean/ KNN Imputation, Regex for cleaning company names, Standardization & Encoding for data pre-processing, enhancing data accuracy by 15%.
 - Evaluated clustering algorithms like Elbow method, K-means, and hierarchical clustering, improving efficiency in clustering accuracy by 20%.
 - Developed a predictive salary analysis model using Python libraries, boosting prediction accuracy by 25%.

EDUCATION

Scaler Academy	2024
PGP in Data Science and Machine Learning	
Manipal Institute of Higher Education	2015
PGDM	
MJPRU - Mahatma Jyotiba Phule Rohilkhand University	2014
BCA
