Education

PES University, Bangalore

Bachelor of Technology

Jun 2019 – Oct 2023

(Bangalore, Karnataka)

Konnur Science PU College

Pre-University College, Science

Apr 2016 – Apr 2018

(Jamkhandi, Karnataka)

Technical Skills

Languages & Frameworks: Java, Python, Spring Boot, Object-Oriented Programming, Data Structure(DSA).

Databases: MySQL.

Tools & Platforms: Git, IntelliJ, Jira, Confluence, Gerrit, Tera-term, PuTTY.

Backend Technologies: Microservices (REST API).

Fontend: HTML, CSS.

Experience

Harman International, Bengaluru

Dec 2023 – Present

Software Development Engineer(Trainee).

- Delivered advanced Java solutions for the automotive sector, contributing to efficient and reliable solutions.
- Integrated the Gradle framework for vendor implementation for a German client, aligning with customer KPIs and ensuring 100% compliance with feature requirements
- Resolved over 4 tester issues through Elvis and root-cause analyses, enhancing feature quality by 10%.
- Utilized tools and platforms such as GIT, Jenkins, Gerrit, Ax8, Tera Term, ALM, and IntelliJ to streamline the development operations.

KPTCL, Bengaluru

Jan 2023 – May 2023

Graduate Engineer Trainee.

- Executed a comprehensive analysis of the Project Substation Maintenance, enhancing operational procedures and contributing to a 15% increase in maintenance efficiency.
- Managed preventive maintenance initiatives and conducted equipment inspections to ensure seamless electricity flow and uninterrupted substation operations.
- Led a team of 4 in executing the Substation Maintenance project, coordinating schedules and tasks to ensure completion ahead of deadlines; improved communication efficiency by 30% through regular progress updates.

Projects

Bank Management System | *Java, MySQL, Object-Oriented Programming(OOP).*

Nov 2023

- Developed a system handling 5+ core banking operations using Java, enabling seamless management of over 5 core banking operations such as deposits, withdrawals, balance inquiries, and PIN updates.
- Implemented robust validation mechanisms and intuitive field checks, reducing user input errors by 40% while enhancing error handling and usability.
- Leveraged Java Database Connectivity (JDBC) to integrate and optimize database interactions for reliability and efficiency.

Movie Microservices Platform | *Java, Spring Boot, Microservices(RESTful APIs).*

Dec 2024

- Engineered a scalable Spring Boot microservices architecture, enabling seamless movie catalog and user rating functionalities for enhanced user experience.
- Implemented key microservices, including movie catalog, movie info, rating data, and discovery services.
- Contributed to the design and development of RESTful APIs, while crafting efficient RESTful APIs to streamline inter-service communication.
- Deployed the application to a cloud-based environment, ensuring high availability and performance.

Relevant Certifications and Coursework

1. **Java course certification** from JSpiders Basavangudi, Bangalore.
2. **SQL And RDBMS certification** from IBM, Cognitive Classes.
3. **Internship completion Certification** from KPTCL, Bangalore.
