About Me

Sculpted by agencies and moulded by corporate for over 10 years, my career has enabled me to pick up extensive competencies in colour theory, design hierarchy, typography, empathy, design thinking, and motion graphics. Working with corporates and prominent clients, I have developed core capabilities in branding including logo designs, UI/UX, packaging and prints, merchandises, websites and landing pages, and marketing assets. My attention to detail, aesthetic sense, and my collaboration with ace visual designers have helped me crack visual languages for brands and clients. I firmly believe your organization stands to gain immensely from my experience and expertise.

Work Experience

UNext Learning

Senior Manager - Graphic Design - Apr 2023 - till date

Initially at Jigsaw Academy and later Unext, I transitioned into a managerial role overseeing the graphic design team and process. Subsequently, promoted to Senior Manager - graphic designer, I led all branding efforts, managed the team, and coordinated various activities, predominantly focusing on B2C deliverables. Recognizing the importance of tools and platforms in design, I brought competencies like empathy, inquisitiveness, and technical expertise to drive innovative strategies. Drawing from operational philosophies, I tailored designs for the B2C audience by understanding target demographics and preferences, achieving optimum conversions. Notably, I spearheaded the branding for our company-owned Cricket Team - Manipal Tigers, managing all creative assets and real-time social media posts during games. Additionally, I extensively contributed to B2B initiatives, crafting materials such as brochures, case studies, and newsletters with a nuanced design language suited to the B2B sensibility.

Jigsaw Academy

Manager - Graphic Design - Jan 2017 - Apr 2023

My tenure at Jigsaw Academy spanned over 6 years. I joined as a graphic designer and was subsequently promoted as a UI designer, senior graphic designer and later as a manager graphic designer. Over my career span here, I was responsible for all branding work including UI/UX, social media posts, emailers, brochures, and even GIFs. Additionally, I played a key role in evolving the brand's identity.

Fxkart.com

Visual Designer - May 2016 - Dec 2016

My initial days of career was in Fxkart, a product-based company, where I served as a graphic designer responsible for managing all branding tasks, such as brochure designs, marketing assets, and PPT templates. I held this position for eight months.

PROPAGANDA INDIA

Visual Designer - June 2014 - Apr 2016

For nearly two years, I was a visual designer at Propaganda India, working with prominent brands including Amazon Kindle, HDFC Life, HDFC Home, and others. The primary responsibilities revolved around branding, pitching ideas, executing campaigns, and experiencing the typical agency life.

Kenriche Technologies

Web Designer - June 2013 - Apr 2014

My first full-time job as a designer, I would affirm this as my formative years. I got hands-on exposure to designing techniques, platforms, and tools and opportunities to showcase my skills and refine them, I was also mentored by senior designers, who have immensely contributed to shaping my thought process and career.
