Full Stack Blockchain Developer

I am currently working at Webcom Systems Pvt. Ltd. With more than **3.5 years** of working experience, I specialize in **Web3.0 / Blockchain Application development**. My expertise includes developing secure and efficient **Smart Contracts**, creating **Decentralized Applications** using **NodeJS** and **NextJS**. I am passionate about exploring new technologies and constantly improving my skills.

I also have good communication skills and can handle client's query with ease. I've lead multiple Web3 Projects to production using cutting edge technology like **WalletConnect**, **Wagmi**, **Viem**, **Subgraphs** etc.

Experience

Full Stack Blockchain Developer

Dec'23-Current

(Webcom Systems Pvt. Ltd.)

As a Full stack blockchain developer my main responsibility is to write efficient **Solidity Smart Contracts** and integrate them into **frontend** and **backend** using **NextJS** and **NodeJS**

Blockchain Developer

Sep'22-Dec'23

(Prolitus Technologies Pvt Ltd.)

As a Blockchain Developer in **Prolitus Technologies**, my main responsibility is to design, code, test, and deploy secure and efficient **Solidity Smart Contracts**.

Adobe Magento2 Developer

Dec'20-Aug'22

(CedCoss Technologies Pvt. Ltd.)

As an Adobe Magento2 developer in **CedCoss Technologies**, I have improved my skills in PHP by creating custom modules using OOPS concepts and REST APIs. Through this work, I have gained expertise in e-commerce domain, database management, and ORM.

Projects

- [Upshotbot.ai](#)
(Wagmi, WalletConnect, Solidity, ReactJS)
- [Mox Platform](#)
(NodeJS, Zokrates, Docker, MySQL, Postgres, MongoDB)
- [SNST Defi](#) ([contract address](#))
(Wagmi, WalletConnect, Solidity, ReactJS)

- [Soarlift](#)
(Flutter, Firebase)
- [ChainEvent](#) (Source Code)
(NextJS, Wagmi)
- [Snowfall Predictor](#) (Source Code)
(Python, flask, ML, JS)
- [Speaker Booster](#) (Source Code)
(Html, CSS, JS)

Education

Bachelor's in Computer Application
(DIT University)

Aug'17-Aug'20

Skills

Programming Languages

Solidity, Javascript, Typescript,
Dart

Databases

MySQL, Postgres, MongoDB,
Firebase

Framework/Tools

NodeJS, Prisma (ORM), GIT,
Flutter, Docker, Express,
Zokrates, ReactJS, NextJS,
Geth, Magento2, Recoil/Redux

Certificates

- [Introduction to Blockchain](#) (CEMCA)
- [Internship Letter for Mahine Learning](#)
(Foxmula)

Hobbies/Interests

- [Blogging](#)
- Reading Novels
