EDUCATION

Marathwada Mitra Mandal's College Of Engineering , Pune, Maharashtra	2020 - 2023
Degree: <i>Bachelors of Engineering in Information Technology</i>	CGPA(Aggregate): 9.1 / 10
Latthe Education Society Polytechnic , Sangli, Maharashtra	2017 - 2020
Degree: <i>Diploma in Computer Engineering</i>	Percentage(Aggregate): 90.46% / 100

WORK EXPERIENCE

<u>STARTOON LABS PRIVATE LIMITED</u> (Skills: Android Studio, Java, React native, JavaScript) Software Developer Telangana	April 2023 – Present Hyderabad,
- Developed and maintained Android applications using Java, optimizing performance through efficient coding and debugging to ensure a seamless user experience. - Integrated Bluetooth communication for real-time data exchange with the Pheezee device, enhancing physiotherapy monitoring and assessment. - Streamlined server communication using the Retrofit library and BLE technology for secure, efficient data transfer between hardware and app. - Utilized Room Database for offline data storage, enabling efficient data management and access even without internet connectivity. - Upgraded the project to ensure compatibility with Android 14 (API Level 34), adapting to the latest platform features and security requirements.	

PROJECTS

<u>ZERONE</u> (Skills: Android Studio, java, Retrofit, Room Database, BLE Connection) - Developed a heart rate monitoring feature by integrating with Polar hardware, enabling real-time heart rate data display within the app. - Implemented algorithms to calculate calories burned and categorize heart rate into specific zones, providing insightful metrics for users. - Designed a seamless data transmission flow from the app to a server, ensuring real-time data storage and enabling advanced analytics.
<u>BOOK MY APPOINTMENT</u> (Skills: React native, Firebase) - Developed an appointment booking application using React Native and Firebase, allowing Medical Representatives (MRs) to reserve time slots with specific doctors based on availability. - Created a user-friendly interface for MRs to view detailed doctor and hospital profiles, simplifying the appointment booking process. - Leveraged React Native to deliver a cross-platform experience, making the app accessible and efficient on both Android and iOS platforms. - Integrated Firebase for secure, real-time data handling, ensuring up-to-date availability and booking status across devices.
<u>HEALTH CARE CHATBOT</u> (Skills: Android Studio, java, Firebase) - Developed a healthcare chatbot using Android Studio, designed to assist users with health-related queries and needs. - Designed an intuitive user interface that facilitates easy question submission and prompt response delivery for enhanced user engagement.

TECH SKILLS

Programming:	Java, JavaScript.
Mobile Development:	Android Studio, React Native.
Web Technologies:	RESTful APIs, React, HTML, CSS.
Cloud Technologies:	AWS(EC2), AWS(S3), AWS Lambda.
Databases:	SQL, MySQL.
Other Tools:	Git, Postman.
