SUMMARY

Passionate AI/ML engineer with a strong background in deep learning, computer vision, and natural language processing. Skilled in Python, TensorFlow, PyTorch, and various ML libraries. Excellent problem-solving, research, and collaboration abilities. Seeking a challenging role to develop cutting-edge AI solutions.

SKILLS

Programming Languages: Python, JavaScript, SQL

Front-End Technologies: HTML, CSS, Bootstrap

Machine Learning Tools: TensorFlow, Keras, PyTorch, NLP, scikit-learn, pandas, NumPy

Other Technical Skills: Flask, Git, Linux, Docker, AWS(EC2,S3,RDS,Lambda)

Soft skills: Problem-Solving, Communication, Collaboration

INTERNSHIP

AI/ML Intern, TEMS TECH SOLUTIONS

Jul 2024 - Nov 2022

- Developed and integrated AI content generation features into a Moodle plugin using HTML, CSS, JavaScript, Flask.
- Oversaw the complete development lifecycle, ensuring seamless integration between back-end and front-end components, from initial coding to final deployment using Docker, AWS.

ACADEMIC PROJECT

IPL Chatbot Using Machine Learning

Developed an IPL Chatbot using HTML, CSS, and Flask to provide player details based on user input, integrating dynamic web pages and server-side functionality. Integrated NLP techniques to enable the chatbot to understand and process player names through named entity recognition and fuzzy matching, improving user experience with natural language queries.
