WORK EXPERIENCE

Senior Software Engineer Kickdrum

10/2023 - Present

Bengaluru, India

Kickdrum is a **software product engineering and advisory firm** based in Austin, Texas with a dedicated engineering center in Bengaluru, India.

Achievements/Tasks

- Designed and implemented a **.NET 8 Proxy Cache Service** to locally store **DICOM** media for an **Image Viewer** optimization project in the **healthcare** domain. Developed an **Azure-native image preprocessing service** to convert DICOM media into **lossy/lossless JPEGs**, delivering improved performance for doctors.
- Led technical delivery** of the Margin Tracker product, spearheading ticket grooming, work breakdown & estimation, and designing a **serverless** Azure-native architecture leveraging **Azure Functions, SQL, and API management** services. Architected and implemented a **.NET 8** Web API solution, establishing **database schemas**, and **CI/CD** pipelines in Azure DevOps. Partnered with UX team and stakeholders to drive product design decisions.
- Led the back-end team** for a client-facing AAA (Authentication, Authorization, and Audit) service, implementing **Kafka** for real-time cache updates/deletions, building REST APIs using **Nest.js** and **TypeScript**, setting up **end-to-end tests**, and orchestrating ticket grooming, estimations, and **code reviews**.
- Conducted **technical interviews** for senior-level candidates and served as a **core member** of the Azure/.NET **Center of Excellence**(CoE).

Software Developer Rare Crew

11/2019 - 10/2023

Bengaluru, India

Rare Crew is a growing software company delivering tailor made solutions and services.

Responsibilities/Tasks/Achievements

- Enhanced functionality and stability of the company's flagship product, **Vault ERP**, and led development of a **"Time Tracking"** module for client production use.
- Independently managed a **U.S.-based client**, optimizing databases and creating database objects to support Tableau visualizations.
- Developed an **Azure function** for automated data synchronization between **Google BigQuery** and **Amazon S3**.
- Created **C# solutions** for data services, integrating sources such as **FTP, ADLS, Jira** etc.
- Automated user access audits across systems (**Jira, DevOps, Databricks**, etc.) for comprehensive activity tracking.

SKILLS

C#	.NET
Azure	Web API
Entity Framework	LINQ
SQL	NoSQL
Microservices	Kafka
Docker	Kubernetes
CI/CD	Git
Debugging	Unit Testing
Leadership	Communication

EDUCATION

B. Tech. Computer Science and Engineering Kalinga Institute of Industrial Technology

07/2015 - 05/2019

Bhubaneswar, India

GPA

8.6

ACHIEVEMENTS

Microsoft Certified: Azure Developer Associate
(10/2024 - Present)
