

Yashaswi Singh *Software Engineer*

✉ mohitsingh00987@gmail.com ☎ 9415096328 📍 Varanasi, India 🌐 yashaswisingh

PROFESSIONAL SUMMARY

Aspiring Full Stack Developer skilled in building dynamic UIs with React, utilizing hooks, context API, and lifecycle methods. Proficient in state management using Redux with middleware and reducers for predictable state. Experienced in asynchronous programming with Node.js, RESTful APIs using Express.js, and leveraging ES6+ JavaScript features for maintainable code and seamless backend integration.

SKILLS

Frontend: React, Redux, HTML5, CSS3, TypeScript, JavaScript (ES6+).

Backend: Node.js, Express.js, JavaScript

Database: MongoDB, MySQL, PostgreSQL

PROFESSIONAL EXPERIENCE

Capgemini Technologies LTD.

Jun 2022 – Nov 2024 | Bengaluru, India

Software Engineer

- Architected reusable and modular project structure to elevate development efficiency and maintainability, leveraging front-end expertise.
- Applied Design Development Patterns to maintain organized and efficient code design across projects.
- Utilized front-end development expertise to architect and establish a reusable and modular project structure, elevating development efficiency and maintainability.
- Integrated RESTful APIs with JavaScript for seamless data fetching and user interactions
- Orchestrated seamless integration between frontend and backend applications, ensuring efficiency and reliability.
- Collaborated with cross-functional teams to enhance system functionalities and streamline reservation processes.
- Developed scalable and effective Node.js backend technologies, improving overall data flow and execution.
- Adopted Agile development practices to enhance teamwork and deliver high-quality results within timelines.

Tech Stack: ReactJS, NodeJS, ExpressJS, Redux

PROJECTS

DevTinder

React.js , Node.js, Express.js, MongoDB

- Developed a Tinder-like dating application using the MERN stack (React.js, Node.js, Express.js, and MongoDB) for user profile creation and swipe-based interactions, enhancing engagement.
- Built robust RESTful APIs with Node.js and Express.js for user authentication, profile management, and interactions.
- Utilized MongoDB for data storage with schema-level validations to ensure data integrity and reliability.
- Integrated real-time user interaction features, enhancing security and overall application performance.
- Managed state efficiently across the application using Redux.
- Implemented secure user authentication using JWT and bcrypt for password protection and token-based authentication.

Hotel Booking Management System

React.js, Node.js, Express.js, MongoDB

- Developed a hotel booking portal similar to Oyo using React.js, Redux, Node.js, Express.js, and MongoDB for seamless room reservations and user management.
- Created a responsive front-end with React and Bootstrap, leveraging Redux for efficient state management and predictable UI updates.
- Implemented secure user authentication using JWT and bcrypt for password protection and token-based authentication.
- Implemented secure user registration, login, and booking management through robust RESTful APIs with Node.js and Express.js.
- Utilized optimized MongoDB queries to ensure efficient data retrieval and scalability.
- Integrated the Stripe Payment Gateway for secure and reliable billing transactions.

EDUCATION

Bachelor Of Technology. (C.S.E)

GLA University Mathura, U.P

2018 - 2022
Mathura, India
